THE VINCENNES DISASTER.

The New Paris Archbishop.

THE LEGITIMISTS

Arrest of Prim's Murderer.

A FORGED LETTER.

FRANCE.

THE VINCENNES DISASTER.

PARIS, July 15.—It is impossible to obtain the details of the disaster at Vincennes. The explosions continue. It is dangerous to approach the scene of confusion and calamity. Many persons from the factory of St. Maur building and stores used in the manufacture of projectiles are entirely destroyed. The accident occurred from unloading the powder carts in too close proximity to the machinery in the preparation of projectiles. It is now thought that the loss of life is comparatively small.

ARRESTS COMPLAINED OF.

PARIS, July 15.—M. Thiers to-day received a deputation of the members of the left in the Assembly who complained of the continuation of arrests and the state of siege in Paris, and non-removal of the capital from Versailles. The President in reply said the persons arrested were accused of heinous crimes; that the state of siege will shortly be raised and that the capital will be removed to Paris after the recess of the Assembly in October.

THE LEGITIMISTS.

The Legitimist Chiefs declare that their party still remains intact despite the manifesto of Count De Chambord. Some members of the party are attempting to issue a circular proclaiming adherence to the Count under all circumstances, but it obtains very few signatures.

ONLY ONE.

It has been positively ascertained that but one person was killed by the explosion of the projectile manufactory at Vincennes.

PROCEEDINGS COMMENCED.

PARIS, July 15.—In Assembly to-day the Government announced that proceedings had been commenced in the Courts against the purchasers of arms in the United States for malfeasance in office.

THE ARCHBISHOP.

Archbishop Guibert, of Tours, has been appointed successor to Mons. Darby as Archbishop of Paris.

ASKS LEAVE.

The Duke of Chartres has asked leave to serve with the French troops in Algeria.

THE ARMY.

The Committee of Assembly upon the reorganization of the army has adopted the principle of compulsory service. The National Guards will therefore be dissolved throughout the country.

SINCERE.

La France announces that frank and sincere explanations have been exchanged with the Italian Government on the subject of the occupation of Rome as the Capital and the status of the Pope.

APPOINTED.

PARIS, July 16.—General Paladine has been appointed Commandant of the Fourteenth Military Division of France.

A FORGERY.

The *Journal Official* again pronounces the alleged letter of President Thiers to the Pope a forgery.

ARRESTS.

Two hundred prisoners were arrested in the Montrouge quarter alone last week.

ENGLAND.

MERCANTILE BANQUET.

LONDON, July 15.—Schenck attended last evening the annual banquet of the merchants and tailors of London. In responding to the toast in honor of the United States, he said that the treaty of Washington had been very much criticised in England as well as in his own country, but both sides were content to accept it as a wise termination of what seemed likely to be an endless difficulty. Schenck alluded to the kind manner in which he had been recieved by all classes of society in England, and expressed the belief that the present era of good feeling between the two nations would be a lasting one. He concluded by the declaration that an alliance between the United States and England would be irresistible.

A TERRIBLE FIRE.

LONDON, July 15.—Dispatches from Rega announce that a terrible fire is raging among the shipping of that port. Fully thirty barks have been burned, half of which were loaded with hemp and corn. The American bark Hellers is among the vessels reported to have been destroyed. The latest dispatches say the fire is under control.

SPAIN.

THE TOBACCO NONOPOLY.

MADRID, July 15.—The Cortes has approved, without discussion or amendment, the bill providing for the continuation of the tobacco monopoly in the hands of the Government.

THE BUDGET.

MADRID, July 16.—The Cortes yesterday evening voted on the budget;

PRIM'S MURDERER.

The murderer of Marshal Prim has been arrested.

OBJECTS.

It is said that Prince D'Assy, son of ex-Queen Isabella, objects to the regency of the Duke De Montpensier, proposed by the monarchical party in event of the restoration of the Bourbon Dynasty in Spain.

GERMANY.

ARRIVED.

FRANKFORT-ON-THE-MAIN, July 15.—Prince Imperial Frederick William, of Germany, has arrived in Frankfort. He will proceed hence to Munich to witness the triumphal entry of the Bavarians into that city.

THE CROWN PRINCE.

MUNICH, July 15.—The Prussian Crown Prince Frederick William has arrived in Munich from England. He was received by King Louis and staff at the railroad depot and escorted to the Royal palace by a large force of Bavarian troops. The people of the Capital turned out in great numbers and enthusiastically welcomed "our Fritz"

CUBA.

SEDITION.

HAVANA, July 15.—The *Voz de Cuba* announces several seditious attempts at Porto Rico. The authorities have the matter already in hand, otherwise the island is quiet.

CAPTURED.

The Cuban General Leon Tamayo was captured lately and executed at Sancti Espiritus.

ITALY.

PREMATURE ANNOUNCEMENT.

ROME, July 15.—The announcement of the arrival of the Russian minister in Rome a few days since was premature. The members of the Legations took up their quarters here on the 11th instant, and the Ambassadors came yesterday.

AUSTRIA.

RATIFIED.

VIENNA, July 15.—The Austrian government has formally ratified the Naturalization Treaty with the United States.

FINANCIAL AND COMMERCIAL.

LONDON, July 15.—Consols 93¼; 5-20's '62, 92⅜; do '65, 92⅛; do '67, 91⅛; 10-40's 91⅛.
LIVERPOOL, July 15.—Cotton heavy; middling upland 9d. Breadstuffs and provisions unchanged. Weather favorable for crops.

The Naval Fight.

DETAILED PARTICULARS.

SAN FRANCISCO, July 16, 1871.

THE COREAN FIGHT.

The following special account of the Corean fight was received by the America from Shanghai, having been brought by the Palos, which left Corea June 3d, to get stores and bring up some eight inch guns from Shualot. The fleet arrived at Jerome Gulf on May 20, and report ten days in surveying the channel between the various islands, coming to anchor at a point designated on the French charts, Ife Boise. For three days the surveying party was away. In that time they met some natives who sent off a communication asking where we were from and hoping we were well. Monday, this week, a number of the Coreans of the third and fifth ranks came aboard. Governor Lowe's interpreters received them, they were not of rank to be received by the Admiral or Minister. They were shown about the Colorado and distinctly told that we meant to send a surveying party up the river and that our mission was peaceful and that we should not attack or molest them unless they first assaulted us. They expressed themselves as non-committal and glad to know that our mission was peaceful, and as I believed that they were satisfied, on Thursday the Monocacy and Palos with four steam launches, two from the Colorado and the others from the Alaska and Benecia, left the ship about half-past ten A. M., to go up and past Kanghoa Island, at the mouth of the river Salee, and survey. The party from the Monocacy under Captain McCrea numbered 170. from the Palos under Colonel Rockwell 50. The launches were manned with eleven men each. Capt. Homer C. Blake was on the Palos. Accompanying the expedition were Cowle, private secretary to Minister Low on the Palos; Messrs. J. McCaslin and Ed. H. Julesburg, Paymaster Spaulding of the Polas were with Lieutenant Totten and Captain Boswell, and Mr. Slassen of the Colorado with Lieutenant Mead's boat. The parties were armed with cutlasses, pistols and Remington rifles. The Benecia launch carried a twenty-four pounder in the bow. The others were provided with twelve pounders, all having a good supply of shell, canister and grapnell. Availing themselves of the flood tide the launches went ahead abreast up the Kongho river, sounding as they proceeded, the Palos and Monocacy following at a short distance. The boats which were unmolested for some time prosecuted their works regularly on the river which is here a mile wide. The day was bright, pleasant and all well. All approached the narrow portion of the river about ten miles from the Colorado. Here a great turn out of white-coated Coreans was noticed on a bluff of the left bank with flags flying, presenting quite a marked array. A nearer view indicated this number about two thousand men, clothed in white coats not unlike the present European overcoats, white pajamas tied at the ankle with socks and light summer shoes such as the Chinese wear. There were two red stone forts visible, one on each bank, apparently armed with upwards of sixty-nine eighteen pounders, and guarding the narrow passage in the bend of the river. The one on the right bank was the smaller of the two, not noticed at all during the fight except by a shot or two to find out if any were stirring therein, but in the main fort on the left bank, rising nearly a hundred feet from the water's edge, was evidently the standpoint of the Coreans, and from which they expected to intimidate or drive away in dismay the foreigners. The launches kept on at their business without heeding the spectacle presented on the bank. The Benecia launch had meanwhile dropped astern owing to a lead line fouling her screw so that when the party came opposite the fort, she was nearly two miles off. Mr. Cowle took good observations of the Coreans and counted more than thirty six guns in position. Beside these were seen a number of jingalls carried by two men each. These last with bannered men helped to swell the array, which formed upon the side and top of the hill, behind the stone wall. The turning point of the river was almost reached, and when at a distance of about one hundred and fifty yards from the shore of the stream a fire was poured from the large fort, followed in a moment by the discharge of the guns from the fort on the right bank. The launches at once turned their bows on the fort and the guns quickly replied, while the Palos and Monocacy coming up on a five knot tide rattled away over the heads of the flotilla with their eight inch rifled guns. Lieutenant Commander Rockwell with the Palos made splendid practice with the bow guns, while Captain McCrea who followed in the Monocacy gave the enemy the benefit of his broadside on the battery at close quarters, so close that the vessel grazed some hidden rocks which formed a reef above the bend of the river. Notwithstanding this accident, which displaced her iron plate and caused her to leak, she kept up a steady fire till the forts were silenced. During the action there was little or no breeze, and the thick smoke from the river almost hid the combatants. At intervals, however, it was noticed that the mortar from the walls was flying off in clouds as the shells burst in the works, and in ten minutes from the commencement of the firing the Coreans were driven back over the hill. Admiral Rodgers had said before the surveying party left his ship: "Don't fire unless you are fired upon, but if you are fired upon don't be first to stop firing." There were no orders given to land, so that after Captain Blake had satisfied himself as to the discomfiture of the enemy, the gunboats and launches were ordered to move around the bend and anchor a short distance above the scene of action. The only casualties reported were on the Alaska's launch. A sailor was in the act of pointing a howitzer when a ball struck him on the side of the head and shoulders, another had two fingers cut off by the recoil of a gun. It seems strange that with hot, close firing on the part of the Coreans such small damage should be done, but it is believed that this fortunate issue for our boats was owing to the larger guns on the forts being elevated too much, for the gunboats and launches were all more or less struck by balls, and many narrow escapes took place, but fortunately none were badly hit. After the boats had rounded the point the Coreans returned to their guns and in time to open fire upon the launch of Benecia which was delayed and left behind. Master Schroeder in charge of the launch did not hesitate to force a passage against all odds and join his companions and as soon as fire from the fort was delivered, coolly returned the fire and pushed on up the river at slackwater. The boats headed down the stream again, but before they started on the return to the squadron a few shells were thrown over the hill into the fort. This settled affairs for that day, the Coreans finding their fort of no use, even round a corner and out of sight, concluded to evacuate. They were seen marching out of the works in single file and making a short route to the woods in the rear. The work of the surveying party being concluded the vessels returned to the squadron without further molestation.

LATER REPORTS.

YOKOHAMA, June 23.—It is reported that during the recent fight between the gunboats Monocacy and Palos and the Corean's forts, that a note, signed by the Chief Counsellor of the King, was sent to our boats by a messenger, which stated the Coreans refused to hold any intercourse whatever with foreign natives, and that the crew of the American ship General Sherman were put to death under the laws of the land because they were guilty of piracy and murder after they had been shipwrecked. Our vessels returned to their anchorage after receiving this letter, and taking as near a survey of the forts as possible. Admiral Rogers now awaits further instructions from Washington.

RUMOR.

When the America left it was rumored that the British fleet was ordered to rendezvous at Chefoo, it is supposed to cooperate with the Americans in Corea.

Cuban Matters—Healthy Lessons—The New Loan—An Error—Fatal Explosion, &c.

NEW YORK, July 15, 1871.

STORMY DEBATE UPON CUBAN MATTERS.

A dispatch from London says there was a stormy debate on Cuba in the Spanish Cortes on July 10th. A motion to censure the Government called forth savage speeches on both sides. A terrible excitement prevailed, and the Government was afraid to face the vote, and explained its conduct on the ground that it could not extend to the Provinces the laws made since the revolution, nor abolish slavery until the insurrection was suppressed. The Government requested the withdrawal of the motion. This was consented to, but the resolution was presented again by another member of the opposition. The debate lasted all night, and resulted in a general concurrence in the necessity of crushing the insurrection forthwith, and a proposition was made to send thirty thousand men to Cuba.

MAY BE ERRONEOUS.

The *Tribune* says: A member of the Civil Service Commission suggests to us that our Washington dispatch stating that four members of the Commission drew five hundred dollars each thus far, which is at the rate of fifty dollars a day, is calculated to produce an erroneous impression. The facts are these: Congress appropriated ten thousand dollars to defray the expenses of the Commission. Four Commissioners were selected from private life and three from the departments at Washington. For the compensation of the former the President designated the sum of $2,000 each as a suitable remuneration for their services and expenses in framing a reformed civil service system. No mileage or incidental expenses are paid to the Commissioners, but they are at liberty to draw two thousand dollars each, whenever they please, as the money is subject to their order. Two Commissioners live a thousand miles away from Washington. They have already consumed about three weeks on preliminary work, including the time spent going to Washington and returning home. During the recess until October four of the Commissioners will devote their spare time to the study of the subject of civil service in all its bearings. The Commissioners would have remained longer in service but for constitutional questions that arose and which they placed before the President with a request that he shall submit them to the Attorney General for his decision. Under these circumstances it is hardly just to charge the commissioners with having drawn too large an enstalment of their compensation. A Congressman's mileage for the distance traveled by some of the Commissioners would amount to more than the sum drawn, but if they can devise thorough and radical civil service reform no one will complain of their compensation.

THE NEW LOAN

Important advices have been received from Washington on the subject of the new loan. According to these statements it appears that Secretary Boutwell has ordered the bank note companies to suspend printing the new bonds, because a sufficient supply to meet any probable subscription in the immediate future is already printed. He says that in view of the limited subscription that we are making, he deemed it expedient to reduce the advertising expenses as much as possible, and at the same time to have the loan properly advertised; therefore he telegraphed the advertising agent from Groton to suspend all advertising of the loan during July till further orders. He further states he has received a letter from Judge Richardson, and that he does not give any indications of his mission in Europe being successful. The subscriptions to the new loan to-day were five thousand dollars.

EXPLOSION.

During a fire this morning on Sixth avenue, a barrel of benzine exploded, severely burning thirteen men. Among the sufferers are John A. Ripple, Joseph Creadle, and Oliver Hawkins, of Engine Company No. 26, together with Fireman Alex McNeil. Fireman John Fisher, of Hook and Ladder Company No. 2, was also dangerously injured, and will, it is feared die. James J. Hurley, James Clair, Edward Viralette, and Assistant Foreman McFarland, of Hook and Ladder No. 4, were badly burned. Assistant Engineer Sullivan was also slightly burned. He had but just recovered from injuries sustained at another fire. John Deegan was badly burned by blazing oil about the head, arms and face, all his hair having been singed off. Officers Michael Daly and James Quimly were also severely burned about the face and hands. The injured men who were most dangerously burned were taken to St. Luke's Hospital. Police officers were attended to at their respective station houses by Police Surgeon Sevan. The damage to the building will not exceed $300.

ARRIVED.

Arrived—Abyssinia from Liverpool; the Iowa from Glasgow.

Among the passengers by the City of London to-day, for Liverpool, was James McNichol, of St. Louis.

Number of emigrants arrived at Castle Garden for last week: 4,136; making a total of 120,447 landed this year. Total number for corresponding week of last year: 138,198.

THE MURDERER FOSTER.

It is believed Foster will escape capital punishment. The murderer, since he was informed of the stay of execution, has been more cheerful, and is in a talkative mood, and feels within himself that he will not suffer the full penalty of the law to which he was consigned. He has been removed from his cell in Murderer's Row.

NEW JERSEY.

Governor Randolph Serenaded.

MIDDLETOWN, July 15.—The neighbors of Governor Randolph, without distinction of party, serenaded him last evening, when the Governor responded as follows: "I have every reason to be grateful when my public acts seem to have the hearty approval of my neighbors and friends, native and foreign as to birth, Republican and Democratic as to politics, Protestant and Catholic as to religion. The truth is, and recent events clearly demonstrated it, that whatever differences we may have as to our political opinion or religious faith, or whatever the accident of birth may have made us, native or foreign, we are all, if we are as we should be, intensely American, proud of the title and jealous of any act by any people that may serve to tarnish the honor or strike at the privileges of our common country. As Jerseymen with great historic associations and memories, we should be recreant to all our fathers contended for did not we attempt at any cost to transmit our rights and privileges untainted and unimpaired. Whilst during the recent troubles complete military preparation was made to promptly and efficiently sustain the central power in case of need and whilst military power would have certainly been exercised to have protected at any cost the rights of the humblest citizen, let me say to you that know me best, that my greatest satisfaction to-night is found in the fact that no serious use of the military force was found necessary. So great was found the noble forbearance, patience and Christian toleration of our people of all religious and political creeds that the military force was on that occasion, as I trust it ever may be, in full subordination to the civil power, assisting not controlling it, sustaining liberty by upholding the laws.

Mr. Pitney and others made speeches commenting on the Governor's course.

CANADA.

MEXICAN CLAIMS.

WASHINGTON, July 15, 1871.

THE PARDON OF BOWEN.

As some journals have subjected the expression in which Grant announced the pardon of Bowen to a severe criticism, it is but fair to state that the copy of the pardon furnished to the press, upon which these comments have been based, contained a material error. The correct official copy has the phrase, "And, whereas, it is represented that he was innocent of any intentional violation of the law." The word intentional was omitted in the pardon as published in the newspapers. Its restoration will be found to deprive the hostile criticisms of nearly all their force.

KU-KLUX.

Captain Tallifero, captain of the Confederate service, and now a planter at Macon, Mississippi, testified before the Ku-Klux Committee to-day. Within the past year in that county fifteen colored men were killed and a number whipped. He says there is an organized band of Ku-Klux in the country. He had attended three or four meetings, although he had never taken the oath. The suppositions of those present was that he was a member and that he had been initiated by the captain of the band, who can swear in members. His friends all belong to the band. The witness gave the complete details of the organization, signs, grips, &c. On one occasion he went on a raid with the band, and was present at the whipping of several colored men, but after that he did not go with them. The object was to obtain control of the negroes and make them vote as their leaders required. No prosecution has or would be instituted in this country, nobody dare prosecute. He was a witness before the grand jury at Oxford, and on his testimony several members of the Ku Klux were indicted. A. T. Flowers, colored, justice of the peace in Chattanooga, Tennessee, testified that he was elected to office about a year ago. About three weeks ago a sister was teaching at a colored school fifteen miles west of the city on Saturday night. While he was there a band of disguised men seized and took him to a swamp, stripped and whipped him and made him promise to surrender his office. He related several instances where colored men were killed. These things produced such fear among the colored people that they sought refuge in towns for safety and were afraid to vote. The next witness, Mr. Bigner, originally from Ohio, served in the Federal army, and afterwards for ten months as Freedmen's Bureau Agent. Four years ago he settled in Clarendon county, South Carolina. He opened a store near Marion, bought land, and was agent for leasing land to colored persons, and made advances to them on their crops. He never had a difficulty with any one till last December, when he was a victim of the Ku Klux band. Disguised men got a keg of powder and destroyed all his store goods. In March they took him and his clerk to a swamp where they gagged and burned the clerk and they threatened to kill the witness. When he gave the masonic sign the leader recognized the sign and spared his life but he was warned to leave in twenty-four hours which he did together with his clerk. In the same county other Republicans had been driven out since these events and a colored man killed.

HELD TO APPEAR.

In the case of Baxter Briggs, Jr., for killing Madison Wilson, it was ordered by the court that the defendant give personal recognisance in the sum of 25,000 dollars to appear at the next term of the court. No investigation into the merits of the case was had.

APPOINTED

John Wasson, of Arizona, was appointed one of the Commissioners under the act to celebrate the centennial anniversary of independence at Philadelphia.

WASHINGTON, July 16, 1871

THE WEATHER.

No important change is reported in the Pacific and Rocky Mountain stations since Saturday evening. The barometer has very generally fallen from Mississippi to the Atlantic and the temperature is higher than yesterday in the interior and on the Atlantic coast but lower on the lakes. Fresh southwesterly winds prevail on the Atlantic coast; pleasant weather was very generally reported on Sunday morning from Lake Ontario to Wisconsin and eastward to the Atlantic, with threatening weather on Lake Michigan; but this afternoon a severe storm has prevailed in New York city, and rains have very generally fallen from Lake Erie, the Ohio river and Southern Illinois.

Probabilities.—It is probable the storm in New York will extend but a short distance, but generally cloudy and rainy weather will extend to-night over the middle Atlantic. Cloudy weather will probably prevail on the Atlantic coast and Southern States. Northwesterly winds are probable for the upper lakes.

MEXICAN CLAIMS.

The Umpire of the Mexican Claims Commission has decided that the Mexican government is responsible for property of American citizens destroyed during the Frinch invasion. He also decides that Americans doing business in Mexico are entitled to indemnity, not being Mexican citizens. The Commissioners have decided that the Miramon and Sulooga Governments in Mexico during 1858 and 1859 were not lawful Governments, and also that the American government is not responsible for depredations committed by the Confederate troops on Mexican citizens. The Commission has allowed one important claim founded on a contract with the Mexican republic, and it is supposed that they will allow all valid claims for military and other supplies furnished by our citizens to Mexico during the French invasion. One of the great questions has yet to be disposed of as to the jurisdiction on claims founded on bonds issued by Mexico and held by American citizens. This question has not been passed upon by the Commissioner or Umpire.

AGRICULTURE.

The July returns of the Statistical Department of Agriculture show a marked increase in the average of corn, amounting fully to $3,000,000, of which $2,000,000 are due to the determination of the cotton States to supply themselves. It is assumed that an acre in corn is equal to 42,000,000 acres more than half the total average.

TO BE PROSECUTED.

Letters from Camden, South Carolina, state that the prosecution of the ringleaders in the recent riots at that place is to be commenced. The Governor has taken away from the militia of the same town their arms, one hundred and seventy-five rifles, muskets and twenty thousand rounds of ammunition.

MINISTERIAL.

The appointment of A. T. Torbert Consul-General to Cuba and that of Thomas Biddle as Minister resident at San Salvador are changes of their present respective official positions.

BUSINESS.

All business which comes to the Executive Mansion requiring the President's personal attention is promptly sent to him at Long Branch.

NEW YORK, July 15, 1871.

THE RIOTS.

The circumstances and incidents of the riots continue to be the absorbing subject of conversation. We give many additional details of interest. The resolutions passed by Captain Joseph H. Petty and the Thirteenth precinct police, denouncing the Eighty-fourth regiment for having fired without cause, meets with universal condemnation throughout the department. It is the opinion of every officer of rank with whom the reporter has conversed that the firing of the military could have been avoided but a few minutes longer, as the crowd were pressing on the police and the military, and each moment missiles and shots were coming faster and faster from housetops and the mob in the streets, and it is wonderful that the soldiers refrained from firing so long as they did. It speaks well for their discipline and coolness. Inspectors Walling and Jameson, Captains Caffrey, Burden and Jeremiah, and Decamp, Helma and others who were engaged, are unanimous in asserting that the military would have been compelled to open fire within a very few minutes, and had a general volley been fired, the loss of life would have been very much greater. President Smith and other Commissioners are indignant at the conduct of Capt. Petty. Charges have been preferred against him and Sergeant Wm. Quinn, and Roundsman John W. Folk, who signed the resolutions.

Arrangements were made yesterday by the officers of the Ninth Regiment for funeral services over their late comrades, Sergeants Wyatt and Page. The fourth companies of the Seventy-first and Thirteenth Regiments of Brooklyn, will also participate in the funeral services.

It appears by the publication of a letter that under date of August 4th, 1870, Mayor Hall sent a letter to Superintendent Jourdan, advising the suppression of the proposed Orange parade of that period, and taking substantially the ground on which Order No. 57 has been based.

All the dead bodies at the Morgue except one have been identified.

The total number of killed thus far reported is fifty-six. Five additional deaths have occurred since Thursday night.

Ten companies of police, forty-five men each, will attend the funeral to-morrow of Henry C. Page and Sergeant Wyatt, of the Ninth Regiment.

NO MERCY.

The *Mail* says in regard to the riot: All talk about innocent and peaceful spectators is nonsense. The Police Commissioners have at headquarters nearly two hundred revolvers and butcher knives taken from seventy men arrested during the riot. One Hibernian had three immense pistols stowed away in his pockets, and another had a knife a foot and a half long concealed in his coat sleeve. These arms were borne by men in the crowd along side the procession and are sufficient proof that the rioters were determined to kill as many as they could. Some of the rioters have been discharged from custody and others released on bail in sums ranging from $500 to $2,000.

MORE DEATHS.

Two more deaths occurred to-day, Wm. McGrath and Wm. H. Lattemer, a well-known merchant of Brooklyn. Several more deaths are hourly expected. Six of those now lying at Bellevue hospital are hurt beyond all hope of recovery, among these, Walter Pryor, son of the popular actress, Mrs. J. J. Pryor.

THE DEAD SOLDIERS.

The bodies of Page and Wyatt of the ninth will rest in the same grave and one monument over them will tell of their death in behalf of law and liberty. Besides the 9th and 13th regiment and four companies of the seventy-first regiment, six hundred policemen under Inspector Dilks will unite in the procession. The bodies will be laid out in full dress uniform of the regiment in magnificent rose wood caskets furnished by those officers of the 9th who are connected with the grand Opera House.

A HEALTHY LESSON.

Never during the last twenty years has New York been more free from disorder of all kinds than during the last two days. The terrible events of last Wednesday have taught the mob a lesson that does not seem likely to be soon forgotten.

AT THE CHURCHES.

Sermons were preached at several of the churches, to-day, on the riots. The Reverend Dr. Northrup, of the Twenty-third Street Presbyterian Church said: The people had passed through scenes of trouble and through deadly strife and had given those in power assurance that having principles to maintain they must not be recreant to their trust. Peace was worth having and preserving even at the expense of bloodshed. It was proper that the Hibernians should have their rights and the Orangemen theirs and nothing less than the rights and liberties of American citizens must be preserved, and if bullets were the only argument effectual with certain classes, then let bullets be used.

In the absence of the Bishop who was out of town Father Carney preached at St. Pataricks Cathedral, from Matthew' seventh chapter. He cautioned the people against false teachers who caring only to gain their ends led them on the path of destruction, and, without directly naming the instigators of the disturbances, exhorted the people in the future to follow the advice of their divinely commissioned teachers, who always spoke to them for their benefit.

At the Church of St. Paul, the Rev. Father Deshaw, speaking in reference to the riot, claimed that the priests were the divinely ordained guides of their flocks in matters political as well as spiritual. That it was the duty of the latter to follow the counsels of their clergy, and that they would thus be guaranteed against error.

At Columbus Church, Rev. Father Haggerty advised Irishmen to bury feuds and animosities of the old land and cultivate friendly relations with the Orangemen.

A SEQUEL.

Edward Jaffney, aged 28, belonging to Company A, Ninth regiment, and late hospital steward of that regiment, died a terrible death. He was detained on the 12th by his sick wife at the Ninth Avenue Hotel. In the evening he was fearfully depressed when he learned of the riot in which his comrades fell, got excited and cut his throat from ear to ear with a razor, expiring instantly.

IRISH BRIGADE MEETING.

A meeting of the officers of the Irish Brigade association was held at the Astor house to-day, Col. Benson presiding preliminary to the projected mass meeting of the Irish citizens of New York to give expression to their opinion on the late riot and the conduct of the authorities.

The following resolution was adopted:

Resolved, That as an organization in great measure representing the Irish society in New York, who fought to sustain the government of the United States and dearly gave substantial evidence of their respect for law and love of liberty, we deeply deplore the calamitious event of Wednesday the 12th inst., and denounce as slanderous and in many quarters supposed to be implied in certain official acts of public officers, that the great body of Irish citizens in New York are in any manner responsible for the occurrence.

That we fail to perceive in the published account of this event evidence of any riotous combination to so great an extent or so widespread for their vile power to subdue, and we therefore believe the employment of the militia and firing on the people demand a searching and thorough investigation.

THE FUNERALS.

The funeral of Sergeant Wyatt and Private Page, of the Ninth Regiment, killed in the riot, took place to day at Woodlawn Cemetery. Service was held over the bodies in Calvary Church; Chaplain Flagg, of the Ninth Regiment, delivering the funeral sermon. The remains were followed to the grave by the 9th, 12th, 71st and representatives of other regiments. Some 8,000 citizens stood in the streets in a drenching rain storm to witness the procession. No one was allowed in the church save military, police and relatives of the family. The scene was impressive. No disturbance whatever occured on the route of the procession.

OFFICERS ATTACKED.

Captain Swift and Lieutenant Cardoza of the 71st regiment, while returning from the funeral in uniform were attacked by a mob who tried to stab them. Lieutenant Cardoza drew a revolver and protected his chief until they reached home. No one injured. John Mahoney, the ring-leader, was arrested.

HOFFMAN AND KELSO.

Governor Hoffman has sent an auto graph letter to Superintendent Kelso, warmly complimenting him on the conduct of the entire police force for discipline, bravery and discretion during the riot.

CHICAGO.

For Life.

CHICAGO, July 15.—The trial of Alfred Ziegenmeyer for the murder of M. W. Gumbleton, in December, was concluded last night, with a verdict of guilty in accordance with the indictment, and fixing his punishment at imprisonment for life in the State Penitentiary. His counsel made a motion for a new trial.

MURDER.

At a place some eight miles east of Fairbury, Nebraska, on the 4th inst., two men, named Wolters and Paschall, were murdered by some person unknown. At ten o'clock they passed through Fairbury in a wagon. Just after leaving the village a young man on horseback was observed to ride up beside the wagon and get in and hitch his horse to the tail end of the wagon. This young man has not been seen or heard of since the murdered men were found, and he is supposed to be the murderer. It seems that they had encamped for the night, and they were evidently engaged in getting grass for their horses where they were. Each man had two bullets holes through the head, entering from the back part. The town was in a terrible state of excitement after the murder was discovered, and if the murderer is caught he will be tried and executed according to the lynch code.

RIOT ENDED.

The Winona *Republican* says: As a sequel to the grand naval fight on the West Wisconsin Railroad bridge, at Hudson, between the lumbermen and the railroad company pile drivers, wherein the former captured the pile-drivers and towed them up to the Stillwater, the arts of diplomacy were finally employed, and resulted in a compromise whereby the railroad men have agreed to leave ample space between the piers for the passage of rafts, and the lumbermen have promised not to interfere again with the bridge.

THE MERA CASE.

The Jury who have been sitting upon the case of Mera, who tortured his child to death at Watsika, Illinois, and was hung by a mob afterwards, have rendered a verdict that he came to his death in accordance with the facts given at the time, and charging certain persons as being responsible for his taking off. They have sent the testimony to Gov. Palmer, with the recommendation that the persons therein named be arrested and tried for this offence. It is rumored that the citizens of Onargo and other places whence came the mob which did the work, will resist any attempt made to arrest the men who did the work.

CANAL DEEPENING.

The deepening of the Illinois and Michigan canal at Summit was completed to-day. The coffer-dam at Bridgeport was cut away at two o'clock this afternoon and the waters of Lake Michigan and the Chicago river are now flowing in the direction of the Illinois river to the Mississippi. The event was announced by a peal from the City Hall bell. The work of deepening the canal has been in progress about five years and has cost the city of Chicago over three millions of dollars. It has been carried through as a sanitary measure and is expected to relieve Chicago river of its almost unendurable filthiness.

DEATH OF TAD LINCOLN.

Thomas Lincoln, universally known as Tad Lincoln, the youngest son of the late President Lincoln, died at the Clifton House, in this city, at seven o'clock this morning. His disease was dropsy of the heart. His eighteenth birthday occurred in May. He was taken ill in a few days after his return from Europe. During his illness his mother has been almost a constant attendant. There has always existed the warmest affection between the two, and Mrs. Lincoln is almost completely prostrated by her affliction.

DIED OF HER WOUND.

Mrs. Murdock, wife of T. B. Murdock, editor of the Eldorado, Kansas *Times*, who cut the throat of one of her children, and then her own, during a temporary fit of insanity, died from the effect of her wound on Sunday last. Up to a few hours previous to her death it was supposed she would recover.

DROWNED.

At Denver, Colorado, yesterday Joseph Esterbrook of Denver, and Samuel Cupp of St. Louis, while fishing in Twin Lake, were drowned by the capsizing of their boat.

THE CHURCH TROUBLE.

CHICAGO, July 16.—This morning at the close of service at Christ Church, George W. Thompson, one of the Vestrymen of the church, at the request of the church wardens; read to the congregation the following correspondence:

"To Mr. E. B. Phillips and Mr. Albert Crane, Wardens of Christ Church, Chicago.

GENTLEMEN: I hereby give you notice of my intention to hold an Episcopal visitation of Christ Church, Chicago, on Sunday, August 30th, being the tenth Sunday after Trinity, at the usual hour of morning service, for the purpose of examining the state of my church, administering the apostolic right of confirmation, ministering the word and administering the Sacrament of the Lord's Supper to the people committed to my charge, and inasmuch as the parish of Christ's Church is now without a Rector, it becomes the duty of the Church Wardens to give public notice of my intention to visit the church to the parishioners individually, as opportunity may occur, and also to the congregation the first occasion of the public worship, after the receipt of this note. I am informed that there are a number ready for confirmation, who have been admitted to the holy communion in the condition of the Rubric, that they are ready and desirous to be confirmed.

I beg you also that the assistance of some minister of the church in good standing to have all who may desire confirmation properly prepared for the same in which I as your Bishop will cheerfully assist you by the indication of a suitable minister of this church You will also please deliver to me a list of candidates for confirmation on the morning of the day of visitation and see that provision is made for the celebration of Holy Communion.

Given under my hand this 8th day of July A. D. 1871.

HENRY I. WHITEHOUSE,
Bishop of Illinois

The reply of the Wardens to the above is as follows:

To the Right Reverend Henry I. Whitehouse, D. D., L. L. D. Bishop of the Protestant Episcopal Church of Illinois.

RIGHT REVEREND SIR:—Your note of the 8th instant was delivered late upon Saturday night and you will pardon a suggestion that this is not the first time we have had occasion to regret that communications intended to be official have been transmitted to ourselves and our Rector at such hour, as if acted on at once, would have precluded that deliberation to which all such communications are entitled. You notify us as Wardens of the parish of Christ Church of your intention to hold an Episcopal visitation of that parish on August 13th, and ask us to give notice of this your intention under the canons, the citation of which is unnecessary. No such notice to us as yours purports to be, nor any such notice as that we are requested to give would be required or justified unless this parish is now without a rector, which is asserted in your letter to be the case, in which we assure you, with entire respect, you are mistaken. The parish of Christ Church of Chicago, long since settled over it as Rector, the Rev. Edward Charles Cheney, and the relations between this parish and that clergyman have not been dissolved. He is still in the exercise of his ministrations, all of his good work among us, and is still going on, and the control between the parish and its Rector remains in full force. Of knowledge of these facts on your part your note gives satisfactory proof, as you remark that you are informed that a number are ready for confirmation and have been admitted to the holy communion according to the Rubric, information which truthful in itself, must have been accompanied by that of the further fact that those so ready for the right and admitted to the other, were made ready and admitted by the rector of Christ Church. It is unnecessary, perhaps, to state that, as the Rev. Mr. Cheney, is the rector of this parish, so is he a minister of the church in good standing. His standing in the estimation of the ministry, so far as we may be permitted in all humility to speak, judging from the blessings which seem to crown his labors is good His position in the Protestant Episcopal church is indicated by the constant and earnest assistance in ministering the word and sacraments he has received and is receiving from his brother clergymen, is good. His standing in this parish as evidenced by the hearty and sincere support of his parishioners, is good. We are unaware of any lawful ground upon which his standing can be impugned. In the proper preparation of candidates for confirmation our Rector needs no assistance from any other minister of the church. We would gladly see you among us on the tenth Sunday after Trinity, to administer the apostolic rite of confirmation. Your notice to that effect was not addressed to our Rector nor did the circumstances exist under which it would have been proper for us to receive and to impart such notice to say nothing of the fact that it was received late Saturday night by one of us and in the absence of the other and as public notice has not been given the day assigned cannot be canonically appropriated to that purpose, and moreover it would be otherwise an inconvenient selection. Whatever arrangement may be made for a visitation at any other time the Wardens will take pleasure in affording their Rector such assistance in making preparations for it as their offices may require.

Yours Respectfully,
E. B. PHILLIPS,
ALBERT CRANE.
Wardens of Christ Church.

TYNG AND CHENEY.

Rev. Stephen H. Tyng, Jr., in a recent interview, denies that he and Rev. Mr. Cheney, of Chicago, were about to secede from the Epicopal Church and set up an independent Protestant Episcopal Church.

INDIANAPOLIS.

The New York Riots.

INDIANAPOLIS, July 16.—A meeting was held here last night to give expression to the feeling of the citizens regarding the recent New York riots. Between one and two thousand persons were present. Resolutions were passed declaring the right of citizens to assemble together peaceably upon all lawful occasions as a sacred right not to be abridged or interfered with by any power; regarding the action of the New York mob in attacking a procession of peaceable citizens, as a crime and outrage against civil liberty; deprecating the conduct of Mayor Hall, in attempting to suppress an assembly of citizens at the dictation of ruffiians as cowardly and unworthy one holding high office among the people, and emphatically condemning the dastardly leaders of the mob, who incited the ignorant and wicked to the perpetration of this great crime. Resolutions commending the action of Governors Hoffman and Randolph also passed. A resolution charging the Catholic Church with the responsibility of the bloodshed on the occasion was voted down.

INDIANA.

Fatal Accident at Terre Haute.

TERRE HAUTE, July 13.—Captain D C. Stunkard, proprietor of the Buntin House, a prominent and highly esteemed citizen, of extensive business and social connections, accidentally shot himself in the abdomen this morning with a pistol in his pantaloon's pocket, inflicting a mortal wound; though living at this hour, he cannot long survive. Captain Stunkard served with much credit in the Mexican war and the war of the rebellion. He leaves a considerable family, amply provided for. This terrible event creates a profound impression.

LATER—Captain Stunkard is dead.

NEW YORK.

Fatal Explosion.

LIBERTY, July 15.—At the celebration at Coon Lake, in the town of Wayland, last evening, a cannon was discharged prematurely, instantly killing Mr. Rynders, fatally wounding T. Parkhill, a prominent lawyer of this place, and slightly wounding several ladies.

FATAL RUNAWAY.

LOCKPORT, N. Y., July 16—The horses attached to a buggy containing three men ran off near Comstock's canal bridge in this city last evening, instantly killing Jas. Calvert, one of the party, by breaking his neck.

NOTWITHSTANDING the bitter hostility of their descendants, there was one point on which King James and the Prince of Orange were quite agreed; both were fond of Pier, Dannals & Co.'s cream ale.

NEW ADVERTISEMENTS.

"Good-Bye, Sweetheart,"
By RHODA BROUGHTON,
Author of "Red as a Rose is She," "Not Wisely but Too Well," &c.

"Red as a Rose is She" was the great sensation among readers of fiction last year, and a new work by the same pen has been looked forward to with profound interest. This author is remarkable for the brilliancy and animation of her style, and the genuine flesh and blood of her men and women. There is an indescribable freshness and charm in all that she writes; she is, indeed, almost a revelation in the art of novel-writing, so singularly vivacious and yet truthful, are all her descriptions, scenes and persons. Her pages have been compared to the odor of June roses or of new-mown hay, so marked are they by the freshness of nature. "Good-bye, Sweetheart," which is commenced in this week's number, will be the leading feature in APPLETONS' JOURNAL during the rest of the year.

APPLETONS' JOURNAL continues its series of splendidly illustrated papers on American localities, and presents each number a choice variety of fiction and papers on interesting subjects. It is a weekly magazine of the best character, published in WEEKLY NUMBERS and MONTHLY PARTS, and contains a larger quantity and greater variety of the better class of literature than any of its contemporaries.

GOLD closed in New York Saturday at 112⅛.

HON. SIMON CAMERON and family are at Bedford Springs.

HORACE GREELEY has been dubbed by Amherst College, LL.D. Henceforward he will be known as Dr. Greeley.

GEN. QUESADA, with two hundred Venezuelans, has landed near Santiago de Cuba, and suffered a disastrous defeat at the hands of the Spaniards. This news *is from Spanish* sources.

THE *World* is evidently trying hard to find a precedent for the New York riot, by way of extenuation. It will fail if it tries to find one outside of the class which conducted this latest one.

TAD LINCOLN died on Saturday, in Chicago, of dropsy of the chest, in the eighteenth year of his age. There are few of our readers who will not recollect this bright little boy during Mr. Lincoln's administration, and who will not regret to hear of his early death. Mrs. Lincoln is left with but one child.

MAYOR HALL of New York, says Protestants are a keg of nitro-glycerine and should not be allowed storage, but Catholics, who vote the Democratic ticket of course, are a barrel of nails. The "one is for commercial and laudable purposes, the other is fraught with danger to the community." What do you think of that, Protestant Democrats? It is the opinion of a Tammany chief.

THE reporter of the New York *World* is very poetical, his language, when he gets worked up by a bloody riot, is most gorgeous and fanciful, as for instance when he remarks that "a pillar of gilded dust, shot through with points of steel, marked the route of the procession and led on the surging crowd." But he is most certainly guilty of a species of plagiarism when he says "the Orange spectre of the old and bloody war passed on its way, not yet laid." There has been a "red spectre" much favored by the revolutionary poets of Europe, and the *World's* poet has stolen him and changed his uniform—that is all.

THE gratifying announcement is made that arrangements have been perfected by the Postoffice Department for a system of postal money orders between the United States and Great Britain. The large amounts annually sent from this country to Ireland in the shape of remittances from immigrants who have settled among us, called for this economical and safe system. Parties will now be enabled to send small amounts at a trifling cost, with the guarantee of the Government that they will be delivered in safety. This will be received with great satisfaction by all classes on both sides of the Ocean, and is an additional proof of the interest taken by our Government in the affairs of our people.

THE *Post* says:

"The number of sudden deaths all over the country must arrest the attention of the medical faculty. They are mainly attributed to disease of the heart, and if this be true, why is it so fatal this, over other years."

This is one of those cool things which our neighbor is in the philanthropic habit of getting off this hot weather. Friday, according to the *Post*, the Radical party was to blame for the alarming increase in the number of sudden deaths in New York, and now, doubtless, compelled thereto by a tardy sense of injustice, it takes the burden from Radical shoulders and tries to make heart disease bear it. But even the *Post* implies that this is not the true cause, knowing well that Democratic rioters in New York and Democratic Ku Klux in the South are the immediate causes of very many of the sudden deaths, and it is those causes and not the attention of the medical faculty which ought to be arrested.

AN article in the New York *World* on the events of the 12th instant is headed "The Orange Riots yesterday." It fails, however, to show a single instance in which Orangemen were riotous. On the contrary, it shows that the Catholics commenced rioting as early as seven o'clock in the morning, and at nine o'clock the Irish laborers on the Boulevards left off work and attacked the Italian and German laborers, beating them badly." Again it says, "The procession began moving at 2:30 o'clock. The Orangemen, though few in numbers, were escorted by a heavy detachment of police and the Seventh, Eighth, Ninth, Twenty Second, and Eighthy-fourth regiments. Along Eighth avenue they were assaulted by bricks and stones, and finally, near the corner of Twenty-sixth street, a shot was fired by a rioter." We fail to see wherein Orangemen can be charged with rioting from this statement. The Democratic Irish Catholics who rule New York, and wish to rule the country, were the only rioters. No Orangeman has been charged by any party with being riotous. The lodges showed their good sense and high appreciation of the importance of preserving the peace by abstaining both in word and deed from everything offensive. "Democratic Catholic riots" would have been a more appropriate caption for the *World's* article. According to the report of the same paper attempts were made to mob the houses of the Orangemen on the night of Wednesday, "but the police dispersed the rioters." The text and the sermons of the *World* do not hang together. They were Democratic riots. No Orangeman was charged with riotous conduct.

"Know-Nothingism begins to develop itself, by the circular which has been issued in New York."—*Post.*

WHO is responsible for it, if such be true? Who will have to answer for the future crimes of inflamed passionate religious enthusiasts? We doubt not for the next generation "the Battle of the Boyne" will be annually celebrated in every considerable city in the land. An enthusiasm has been kindled in the breasts of Protestants, by the recent attack upon the procession of Orangemen, that, after assuming a variety of forms, will go on increasing with the years, and no one can predict the final result. Tyranny and oppression always beget opposition. The puniest worm beneath the sole of your foot will turn to sting you. The attempt to murder the peaceable adherents of Protestantism in New York will stir up anew the memories of past crimes, which would else have been forgotten. Had this procession been allowed to peaceably parade the streets of New York, without protest, as it should have been, "the battle of the Boyne," in all probability, might never again have been celebrated in this country. But now we look for the establishment of leagues throughout the land, and it will require the lapse of at least a generation to wipe out the recollections of the scenes of last Wednesday. And if such should be the case, while we would deplore it, yet we are bound in justice and truth to hold the Irish Catholics of New York responsible for it, and cannot help blaming to some extent the rulers of that city.

We firmly believe that had a proper and courageous spirit been shown by the latter the mob would have quailed before the power of law; but after the exhibition of a weak and truckling subserviency, they grew in boldness and numbers, and the final interposition of the governor was too late to effect any good.

We do not want to misrepresent any one, neither will we attempt to shield the justly responsible, but after calmly viewing the whole matter, we are bound to hold Mayor Hall and his advisers equally guilty with the rioters, and on them must rest the responsibility for future mischief growing out of this sad and unfortunate affair.

If the grim monster "Know Nothingism," which the *Post*, and those who think with it, appear so much to fear, is again to assume control of men's minds, and grow to be a power in the land, the troubles and horrors ahead of us are but dimly foreshadowed by the attack of the mob on last Wednesday in New York. If it be true, as the *Post* states, that this long since defunct order is to be revived, what is the inciting cause, which will bring it again into active life? Is it because Protestantism has interfered with any of our rights or liberties? Is it because *Protestants* have interfered with the processions of the *Catholic* adherents, or the reverse of these? Let the *Post* be careful how it speaks to a long patient and long suffering people. There is an end to all moral, as well as physical endurance. If the influence of its party is to be thrown in favor of intolerance and bigotry the people may appeal to the laws to protect our Sabbaths from the desecrations which in the opinions of good Catholics, as well as Protestants, we have more than once lately been compelled to submit to. If an unholy and untimely religious crusade is to be inaugurated, as the *Post* seems to fear, it may thank its friends, the *thugs* and scum of New York society—ALL IRISH CATHOLICS—ALL DEMOCRATS, for the crimes and miseries which must follow. May we not add that its own course in lending an indirect approval to the hellish work of the mob of last Wednesday, will be righteously brought up in condemnation against it? Let the *Post* and its friends pause, ere they throw their influence on the side of mob law, and religious intolerance. They have much to loose by such a course.

Our own opinion is, that should the order known as "Know-Nothingism" again be brought into existence, as the resulting effects of the recent outbreak, all distinction of nativity and race will be obliterated from its by-laws, and the test be narrowed down to the one thing—"Protestantism against Catholicism." This will be nothing more nor less than the platform of the present order known as "The American Protestant Association," and on this all Protestants can unite, whether native or foreign born. And if this condition of affairs is to be averted, we will have to thank the moderation of Protestants, rather than the wisdom and toleration of Catholics.

ORANGE SM.

There is a disposition among Democrats to misrepresent the principles and objects of the Orange Society as organized in this country. Its principles, it is said, are anti-Republican and monarchical in their tendency and character, and its members are in allegiance to a foreign ruler. We are not the advocate of Orangeism, but as the Democratic journals are laboring to produce a wrong impression on the minds of the people in regard to it, we deem it our duty to correct the false statements to which they have given circulation.

It is true that the term loyal, which occurs in the official designation and constitution of the order, is interpreted in the British Isles, where it originated, to mean loyalty to the Protestant British throne and constitution. But the members of the Association in this country renounce all allegiance to the reigning sovereign of Great Britain. The order is separate from and independent of the organization in England and Ireland. It is entitled "The Loyal Orange Institution of the United States," and is composed of persons "desirous of supporting, to the utmost of their power, the principles and precepts of the Protestant religion, to maintain the laws *and Constitution* of this country, afford assistance to the distressed members of the order, and otherwise to promote such laudable and benevolent purposes as may tend to the due ordering of religion and Christian charity, and the supremacy of law. order and constitutional freedom." With the principles here enunciated no one can find fault. There may be many who will call in question the necessity of such an order. It may be said the Christian Church can do all this. But the same objection may be raised against Christian associations and other voluntary societies. To many, these associations and societies, which are irresponsible, seem quite unnecessary. It is held that the Church should, and should alone, do all that they propose to do.

But if the "Loyal Orange Institution" is obnoxious to Catholics because it pledges itself to support, to the utmost of its power, the principles and precepts of the Protestant religion, "the Protestant Church itself is equally obnoxious to them. Its object is not only to oppose Catholicism, but to proselyte Catholics. According to Mayor Hall of New York, in this view of the matter, the Protestant Church is as much fraught with danger to the public as a keg of nitro-glycerine, and should be suppressed. The members of it should not be allowed to associate together for the purpose of disseminating the principles which they hold, because they are opposed alike to Catholicism and Democracy. Above all, those intolerant bigots, as the orthodox Mayor of New York would call them, the Presbyterians, should be exterminated, because they declare in their Confession of Faith that their mission is to "extirpate Popery and Prelacy." Indeed, the doctrine proclaimed by the heads of the Tammany Order, is that everything else in this country must get down upon its knees to the twin sisters of Democracy and Catholicism.

We find no such intolerance in the constitutions of the Loyal Orange Institution. It declares plainly that it "lays no claim to exclusive Protestantism or exclusive loyalty," and that it seeks to mantain the Christian "religion *without persecution* or *treading upon the rights of any.*" It goes farther and declares that in seeking admission into the order "*the candidate shall be believed to be incapable of persecuting* or *injuring any person on account of his religious opinions*' the duty of every Orangeman being to aid and defend all loyal citizens of every religious persuasion in the enjoyment of their constitutional rights." These liberal declarations are in striking contrast with the expressions of intolerance which has been uttered recently by the Catholics of New York.

If we throw the secrecy of the order out of consideration, we do not see how any man could interpose an objection to the Loyal Orange Institution. The members of it are American citizens, pledged to maintain the laws and the Constitution, and advance the interests of the Protestant religion.

The Irish Catholics do swear allegiance to a foreign civil ruler Pius IX. The Orangemen acknowledge no subjection to any prince or potentate. It is worse than malicious then for the Democratic papers to hold them up as an association of foreigners. Such gross misrepresentations only tend to widen the breach, already too wide, between Loyal Orangemen and Irish Catholics.

We have already given the history of Orangeism as it exists in the British isles. We publish this morning in another column the principles of the order as it exists in this country, to which we direct the especial attention of our readers. We think that no one will find fault with anything therein set forth.

WHAT ORANGEISM MEANS.

The Constitution of the American Order--The Aims and Purposes of the Organization -- Qualifications and Obligations of Membership.

The Orangemen claim that their order as it exists in America is not liable to the charge of foreign allegiance on the part of its members. In support of this assertion Orangemen call attention to their constitution and regulations, which are as follows:

GENERAL DECLARATION.

The title of this society shall be "The Loyal Orange Institution of the United States of America." At all times nothing can be more natural, and at this time nothing can be more reasonable than those who have common rights to protect and common interests to defend, should act together and know each other. It is by division that the benevolent objects of true patriots are frustrated, and their best and noblest efforts for the public good defeated. In this great republic it must be obvious to every loyal and reflecting mind that a union of intelligence and increase of means, and a knowledge of each other, are essential.

The Loyal Orange Institution of the United States of America is formed by persons desirous of supporting to the utmost of their power the principles and precepts of the Protestant religion, to maintain the laws and Constitution of this country, afford assistance to the distressed members of the order, and otherwise promote such laudable and benevolent purposes as may tend to the due ordering of religion and Christian charity, and the supremacy of law, order and constitutional freedom.

Its members associate in honor of William Henry, Prince of Orange, whose name they bear, and whose memory they revere, tending, as he did, under Divine Providence, to the overthrow of the most oppressive bigotry, and the restoration of civil and religious freedom, and hope, in the adoption of his name, to emulate his virtues by maintaining religion without persecution, or trenching upon the rights of any. They also assemble in the name and revere the memory of George Washington, believing him to be blessed by Almighty God, in raising a lasting tribute to his memory, the universal freedom, both civil and religious, of this country to the end of time. Likewise do they revere the memory of Abraham Lincoln, as one whom the people of this country should forever remember as the great liberator of a section of the human race.

The Orange Institution lays no claim to exclusive Protestantism or exclusive loyalty, but it admits no man or body of men within its pale whose creed is not Protestant and whose principles are not loyal. Disclaiming an intolerant spirit, the institution demands, as an indispensable qualification, without which the greatest and the wealthiest man may seek admission in vain: "That the candidate shall be believed to be incapable of persecuting or injuring any person on account of his religious opinions,—the duty of every Orangeman being to aid and defend the loyal citizens of every religious persuation in the enjoyment of their constitutional rights.

The rules of the institution are open not only to the members thereof, but to the whole community; there is no reserve, except the signs and symbols whereby Orangemen know each other, and these mysteries are essential to the proper qualification of the brotherhood, the recognition of members and the prevention of intrusion and imposition from strangers and foes. The institution is universal, not confined to any particular place, person or nation, but extends itself wherever a loyal Protestant is to be found, to the remotest part of the globe, for the establishment of faith and liberty to the latest ages of posterity.

The whole institution is one neighborhood, within which every Orangeman is at home in the furthest part of the world, and such is the mechanism of the institution, that while its operations are thus extended, its every movement is alike felt and answered in every part. In short, the Orange Institution, like a glorious morning luminary, is intended to pour its refulgence not on one part only of the circumference of the globe, but simultaneously on every portion, equally enlightening the whole periphery. In many quarters where the true nature of the Orange Institution is not properly known, its designs and objects have been by some misunderstood and by others misrepresented.

From the name it bears being connected in everyone's mind with the history of parties in Europe—some are apt to suppose that its sphere is necessarily confined, not reflecting that an instrument which has been chiefly used in the country of its birth to suppress rebellion, *repel invasion and secure domestic* tranquility, may be found equally *efficacious to loyal men of all countries, in protecting their lives, liberties and properties.*

As the Prince of Orange was invited to England by a coalition of parties, who were united by a common sense of their sacred duty to preserve their civil and religious liberty, and as the Pilgrim Fathers were united in their earnest and zealous principles of Freedom when approaching the shores of this free land to maintain herein those sacred rights forever, and as the immortal memories of Washington and Lincoln, one sacredly held by all true patriots as being worthy the veneration of good men in and of every free land, so likewise doth the Loyal Orange Institution behoove all zealous and earnest Protestants to rally round one common standard of freedom, composed of colors which have hitherto been borne through fields of fire and blood, on to the goal of victory, on behalf of civil and religious freedom. The Orange and Purple, combined with the American Stars and Stripes, doth enjoin the suitable motto—In God we Trust—upon all loyal and worthy Protestants.

QUALIFICATIONS OF MEMBERSHIP.

The candidate should have a sincere love and veneration for his Almighty Maker, productive of these happy fruits—righteousness and obedience to God's commands—a firm and steadfast faith in the Saviour of the world; convinced that Jesus Christ is the only meditator between a sinful creature and a holy and offended Creator, possessing a reliance upon the power and grace of the Holy Spirit; his disposition should be humane and compassionate; he should be an enemy to brutality and every species of unchristian conduct; he should be a lover of rational and improving society, faithfully regarding the Protestant religion, and sincerely desirous of propagating its precepts, viz: charity and good-will toward all men; being careful to preserve sobriety and good conduct among his brethren, condemning intemperance as an abomination, being zealous in promotion of the honor, happiness and prosperity of the Order, a lover and loyal defender of his country, being careful to suppress all Popish encroachments and invasions. He should have a hatred of cursing and swearing, and of the profane use of God's holy name. He should shun the company of all men addicted to any or all of these habits, which are in opposition to the divine teachings of the Bible and the good government of the institution. Prudence and loyalty should guide all his actions; temperance, charity and honesty direct his conduct, and the laudable objects of the Orange Institution should be the motive of all his endeavors through life.

THE ORANGE OBLIGATION.

I, A. B., do declare that I entertain a sincere love and veneration for my Almighty Maker, a firm and steadfast faith in Jesus Christ, the Saviour of the world, and the only mediator between God and man, and a reliance upon the power and grace of the Holy Spirit, and I engage to propagate and maintain to the utmost of my power the pure doctrines and precepts of the pure Protestant religion, of the Old and New Testament, and I further declare that I will to the utmost of my power support the laws of these United States as long as they maintain civil and religious freedom, and I will, as far as in my power lieth, assist the Chief Magistrate and all other loyal authorities in the lawful execution of their several duties, to maintain order and peace, if called upon so to do. I swear that I am not now, and never shall be a Roman Catholic or Papist; neither will I marry a Roman Catholic or Papist wife, knowing her to be such; nor educate my children, nor suffer them to be educated in the Roman Catholic or Popish faith, if in my power to prevent it. I swear that I will be true and faithful to every true and faithful Brother Orangeman in all just actions, neither wronging him, nor knowing him to be wronged or injured, without giving him due notice thereof, and preventing the same, if in my power so to do. I swear that I have never been rejected, suspended or expelled from any lodge, society or institution that has borne the name of Orange, or that was understood as such. I swear that I am not a member of any society or body of men who are enemies to the Protestant religion and the Orange institution. I swear that I will not knowingly propose or second the proposition of any person or persons as a member or members of the Orange institution whose sentiments do not agree with the principles of this obligation and institution. I swear that I will never disclose or reveal, either in part or parts, either the whole or any part thereof, of the signs, symbols, pass words or lecture of this Orange Degree, either to a member of the Protestant Association, or any other person or persons except to those of the heretofore mentioned, who shall become loyally constituted Orangemen under this Orange institution, and I further swear that I will, to the utmost of my power, carry out the laws and ordinances, and obey the officers of this institution; and I further swear that I will obey all regular summonses of this institution, and pay all just dues if in my power to do so, without damaging my family or myself, and I will hold sacred the name of the glorious deliverer from Popish intolerance and cruelty, William of Orange, and do hereby engage, if in my power to do so, to assemble with my Orange brethren on the 12th day of July in each year, if thus spared by the Almighty, to celebrate the great victories achieved on behalf of civil and religious liberty and the Protestant religion in general.

So help me God, and keep me steadfast in this my loyal Orange obligation.

OPENING PRAYER USED IN LODGES.

Almighty and most merciful Father, the God of Abraham, Isaac and Jacob, who in all ages hast shown Thy almighty power in the advancement and defense of Thy true religion, we humbly beseech Thee to engraft in our hearts the love of Thy name, increase in us true religion, nourish us with all goodness, and by Thy great mercy preserve us in the same all the days of our lives. Graciously pour upon us the rich refulgence of Thy Holy Spirit, while assembled in Thy Holy Name. Grant us Thy special favor and grace: enable us to transact the business of this meeting in Thy fear and love. May all our thoughts, words and works be for the advancement of Thy kingdom, the good of our country, the safety, honor and wellfare of all Thy people. Bles, we beseech Thee, the President of these United States, and all in authority, with truth, charity and wisdom. Bless, O Lord, the memory of Thy good servant William, Prince of Orange, who defended Thy faith in Thy strength and grace, and whom Thou didst make instrumental in propagating Thy revealed word—the Holy Bible—and grant us grace to follow in his footsteps, and in the footsteps of all Thy servants whom Thou hast sent to prepare Thy kingdom. Spread, O Lord, the knowledge of Thy salvation, through Jesus Christ our Saviour. Forbid that we shall ever bow or confess to saints, angels, or men. Preserve these United States from all error and false doctrine, whether advanced by Popery or any other unscriptural authority. Sanctify our souls through the redeeming blood of Christ Jesus our Lord. Be thou, O Lord, our deliverer and strong tower of defense, frustrate all the designs of wicked men against Thy holy religion, as expounded from Thy Holy Word. Pour down Thy Holy Spirit upon the several branches of the Protestant religion, enable us to perpetuate the truths of Thy Holy Word, so that the world may acknowledge Thee as one Triune God. Bless, we beseech Thee, every member of the Orange Institution all over the universe; preserve them by special grace and in the remembrance of all Thy servants who didst maintain Thy true religion. Bless us with the same faith and redeem us in the same Saviour which Thou didst show unto them. Finally, lead us to Thine Everlasting Sanctuary, through the alone merits of Jesus Christ, Thy Son, our Lord. Amen.

OUR NEW YORK LETTER.

[Correspondence of Pittsburgh Gazette.]

Following closely upon the heels of the Fourth of July, and almost before the innocent saltpetre expended on that occasion had time to clear away, came the memorable and stirring events of the 12th. Instead of the mimic war of fire crackers and torpedoes, came the rattle of musketry and the whistling of the minnie ball. Blood has freely flowed in the streets of our beautiful city, and our citizens are laboring under intense excitement. On the evening of the 12th and 13th the streets were almost deserted, and in the Central Park not a sign of life could be seen but a few loving couples who wandered sheepishly about on the usually crowded thoroughfares.

A repetition of the "sanguinary scenes" that disgraced our city in "sixty three" was hourly expected. The fever had been gaining in strength and violence, and once started, none could predict when it would be stopped.

On the morning of the 11th, when the order prohibiting the Orange parade was made public, a universal storm of execration and indignation was visited upon the heads of the authorities. The city papers (with but one exception—the *World*,) denounced it as "a disgraceful surrender of a great city to a handful of Irish roughs." Of course the "wearers of the green" were immensely pleased, and with good reason. Had not the authorities of the wealthy city of New York, backed by a powerful militia and police force, weekly submitted to *their demands?* thus declaring *them* their lords and masters.

On the other hand, the respectable and powerful majority represented by the Protestant denominations, keenly felt their disgrace, and a thrill of anguish pervaded loyal hearts, as when the wires brought the intelligence of Lincoln's assination.

But on the morning of the 12th another actor appears upon the scene. All previous orders are countermanded. Police and militia ordered to report to headquarters, prepared for any emergency, and "all citizens of every race and religion" called upon to assist in preserving peace. Here was a regular "flip flop." What did it mean? Mayor Hall was completely ignored. The disgraceful surrender was averted and the power of the press, and the majesty of the law were to be vindicated.

The subsequent events your readers have already obtained by telegraph. The procession was attacked and summary punishment inflicted on the rioters. The troops firing with ball, and at short range, the effect was fearful. The soldiers fired without orders from their commanding officers, but the provocation was surely sufficient to justify it. Fired upon from house tops and windows, attacked in front and rear with missiles of all kinds, their comrades falling around them, it was no wonder they "fired with ball." Many among the rioters were killed, who were merely spectators, but as they were in bad company, they could expect no better fate. The Orangemen marched in the centre of the military, and received but little injury, not one of their number was killed, or wounded severely. There were one hundred and sixty men in the ranks, and all behaved through the trying scene, with coolness and intrepidity. Among the troops the loss was slight. In the confusion of the morning reports it is hard to ascertain the correct number, varying from three to six killed and quite a number severely wounded—twenty-nine of the rioters were killed at the first and second discharges. Among them two women and one little girl aged ten years, who was fearfully paid for her curiosity. This number will doubtless be increased by deaths from wounds received. All is over, and the city is quiet again, but it is the quiet of the tornado which only waits to gather strength, ere it visits us, with its unpitying storm. The event of the last week has shown our citizens, that they are feasting on the brink of a powder magazine, which may explode at any moment.

The question of "religious toleration" is a serious one, and it is useless to disguise its growing importance. When the telegraph flashed across the continent the fact that a body of Italians, residents of San Francisco, ventured to hoist a flag from their headquarters in honor of the independence of their native country, the men, who only three days before had paraded the streets with flags and banners for two hours in honor of Pio Nono, took umbrage at this solitary flag, and threatened to tear it down. But little significance was attached to it at the time, but now we see in it the same spirit of intolerance and bigotry that compelled Mayor Hall to issue his notorious order. "Straws tell which way the wind blows," and it becomes Americans to guard well their liberties, both civil and religious.

In disorderly Ireland, Orange processions march unmolested, but in our free country the disgraceful spectacle is seen of a Protestant society, loyal in its *constitution* to our Republic as well as in its *oaths*, marching as felons would, surrounded by military. Was Hoffman's brilliant flank movement a "bid" for the Presidency? May not the whole scheme have been a political plot? All-powerful Tammany is made to lick the dust, while Hoffman rises into prominence on the disgraceful ruins.

Another frightful railroad accident closed last week's chapter of accidents. Four valuable lives were lost, others severely injured, and had it not been for the fact that two front cars of one train were empty, a fearful massacre would have followed the collision. The verdict of "carelessness on the part of the switch-tender" will be but small comfort to the friends of the noble heroes who stood at their posts and lost their lives in the discharge of their duty. "Theirs but to do and die," "though some one had blundered."

The hot weather is driving all of our "upper ten" out of town. If, as an old saying has it, "the priest's holiday is the devil's work time," his "Satanic Majesty" must be over head and ears in business now in our midst. Nearly all the chief shepherds have deserted their flocks, and follow the more congenial summer occupation of rambling over the hills or drinking in the pure sea breeze at some of our fashionable watering places.

It is hard to reconcile these long vacations of clergymen with our notions of right. Custom has sanctioned it of late years, but such license was unknown before the days of large salaries and popular preaching. Would it not be well to follow the example of the Romanists in this matter, at least to a certain extent? Some years ago the question was raised as to whether the priests' salaries should not be increased, but it was voted down for the reason that an increase of salary would tend to raise them above their flocks and cause them to forget the *poor*. *Their* churches are *never closed*, and if the priests want vacation they must take it during the week, but be at their posts, like true shepherds, to guard against the introduction of the tares.

The absurdity of the plea against preaching to empty seats is clearly manifested on visiting the churches which remain open. In such a large city as this, it is impossible for all to leave town, and the seats left vacant by the fashionable absentees are not empty, for the "angels" fill them.

THE BEST TRUSSES IN THE WORLD.

If there is any infirmity that needs care and extra attention it is that of Rupture of the bowels, as there can hardly be any protrusion of them, even for an hour, without endangering life and exposing the patient to imminent peril. We have examined hundreds of persons who have gone all the rounds in the vain endeavor to obtain suitable Trusses to retain their rupture, and without being successful. Not one of these cases but could have been cured in the early stage of rupture, and even after years of neglect many of them can be cured, if they will only make application to some one thoroughly conversant with the malady in question. What, to most persons, is the expense of a few dollars for a well-fitting Truss, properly applied, when in many cases it is the means of saving a life and adding to his comfort for years? The prevailing belief that rupture is incurable has done incalculable mischief by making persons careless with regard to the same; whilst, if they did try to get well, they can certainly be no worse off for having made the attempt. There are so many cases that resemble rupture that we would advise all our readers to make application to a competent establishment, such as Dr. KEYSER'S, 167 Liberty street, where Trusses from two to twenty dollars can be obtained.

MIDSUMMER MALADIES.

The hot solar rays that ripen the harvests generate many distressing diseases. If the liver be at all predisposed to irregularities, this is the season in which bilious attacks may be anticipated. A weak stomach, too, is weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is so great, that a wholesome tonic, combining also the properties of a diffusive stimulant and general exhilarant, is in many cases necessary to health, and under no circumstances should be dispensed with by the sickly and debilitated. Of all the preparations intended thus to refresh, sustain, and fortify the human frame, there is none that will compare with Hostetter's Celebrated Stomach Bitters. They have been weighed in the balance of experience and not found wanting; have been recommended from the first as a great medicinal specific, not as a beverage, and in spite of interested opposition from innumerable quarters, stand, after a twenty years trial, at the head of all proprietary medicines intended for the prevention and cure of all ordinary complaints of the stomach, the liver, the bowels, and the nerves. In the unhealthy districts bordering the great rivers of the South and West, Hostetter's Bitters may be classed as the standard one for every species of intermittent or remittent fever. The people who inhabit those districts, place the most implicit confidence in the preparation—confidence that is increased every year by the results of its operation.

As bitters, so called, of the most pernicious character, are springing up like fungi on every side, the public is hereby forewarned against the dram-shop frauds. Ask for Hostetter's Bitters, see that the label, etc., are correct, and remember that the genuine article is never sold in bulk, but in bottles only.

GENERAL AGENTS FOR THE
Johnstown Improved Hydraulic Cement,
This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater than all others in this market, less freight and fresher, which is an important matter. Having but a short distance to ship we can therefore sell cheaper than any other in the market.

DR. WHITTIER
296 PENN STREET, PITTSBURGH, PA
A regular Graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh.
Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases and Syphilitic or Mercurial affections of the Throat, Skin or Bones are treated with unparalleled success.
Spermatorrhoea, Sexual Debility and Impotency, the result of self abuse in youth, sexual excesses in maturer years, or other causes, which produce some of the following effects, viz: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential; consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill; many physicians knowing this, recommend patients to his care. Medicines sent everywhere.

Finance and Trade.

NEW YORK, July 15, 1871.

Gold more active, selling up to 112⅜ during the day, closing at 112⅜ bid. Loans were made at 1@2 per cent. Clearings forty-eight millions. Exports to-day $845,902; for the week $1,962,814. Governments steady with a limited business. Five-twenties of July are a fraction better. Stock market, if small transactions in stocks to-day can be said to make the market, is steady. The fluctuations in leading stocks have in no instance been over a half per cent., and in the majority of cases not over one-fourth per cent. Most of the speculators are out of town and prices firm. Short interest is heavy and borrowing demand for stocks good.

Money easy at 2@3 per cent. The bank statement shows a small loss in the reserve, but banks now hold so much over the amount required by law that there is no fear of tight money. The following are the changes of loans: Increase, $2,266,656; specie increase, $512,506; circulation decrease, $30,911; deposit increase, $6,224,741; legal tender increase, $598,051. In State securities Missouri and Tennessees are strong; others dull and steady.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 15, 1871.

ASHES—Common Soda ash, 4@4⅜; refined, 4⅜@4⅜; Pearls, 9; Pots, 7⅜; Nitrate Soda 4⅜.

BUTTER—We have to report a continued dull market and with liberal receipts and a diminished demand, prices are weak and drooping; prime to choice, 15@16c; fair to good 12@14c; grease butter 8@9c.

BEANS—There is some inquiry for strictly prime navy, and the market is bare; would sell readily, in a small way, at $2,00@2,25. Common not wanted at any price.

BROOM CORN—Sales at 5@7 cts.

BEESWAX—Quoted at 33@35.

CEMENT—Louisville, $2,50@3,00 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4,25@4,50.

BERRIES—Blackberries are coming in freely and fresh in good order, may be quoted at $1 per bucket, buckets returned.

COUNTRY MEAT—The stock of country meat, particularly that in good order, is small, but there seems to be little no improvement in the demand excepting for hams. Country Lard, 9@10 c.

CANNED GOODS—Tomatoes very scarce and we now quote at $2,75. Peaches dull but unchanged, $2 for 2 lb cans, and $3,00@3,25 for 3 lb cans. Corn unchanged, at $2,50.

CORN MEAL—Is still quoted in a jobbing way at 80@85 per bushel.

CARBON OIL—Is quiet and unchanged; standard brands, 24 cts, in a jobbing way.

CHEESE—Is in good supply and weak; prime Ohio Goshen, 10⅜@11; prime Factory 9⅜@10; and Dairy, 8@9.

EGGS—The market continues, very dull and prices are weak and drooping; 15 seemed to be regarded as the ruling quotation, though some dealers still quoted at 16c. The great bulk of the stock is in bad order, and some of our commission men report that they don't want to see an egg for a month to come.

FLOUR—The market continues dull and weak though prices are nominally unchanged, $6.75@7 for good spring extras; $7,15@7,25 for choice bakers flour and $7,00@7,25 for good to choice winter wheat. The receipts have fallen off very materially within the past week, an indication, that dealers as will as consumers, anticipate lower prices. Rye Flour, in a small way.

FRUITS—Green apples are in fair supply and while prime, in large sized barrels, are selling readily at $3,50@4; inferior are hard stock. Dried Fruit is, to use a common phrase, played out, and there is not much inquiry for foreign fruits. Layer Raisins unchanged, at $3 per box; Valencias, 12⅜@13 cts per lb. Turkey Prunes, 10; French, 11⅜@12 cts.

GRAIN—The operations in Wheat continue light and the market is dull, while prices are nominally unchanged, $1,20@1,25 for new red and $1,25@1,30 for old. Some dealers are inclined to think that there will be a better market for old stock within the next thirty days, and, in consequence, they are unwilling to sell at present prices. Oats continue quiet and unchanged, 68 buying and 63 selling—65@68 for small lots, in store; we are cognizant of some sales as low as 62⅜, and even 62, but the Oats were black and mixed, and there is always a difference between these and prime white of one-half to one cent per bushel. Corn is reported steady with a comparatively light supply, but the demand is by no means urgent, and prices remain unchanged; 68@70 for mixed ear and shelled, and 72 for prime yellow—for car load lots, in bulk. There is little or no Rye coming in, but the inquiry is light and there are no cash buyers above $1, and not many even at that.

GROCERIES—The grocery market is moderately active; we can report a continued good trade in Sugars, and Coffee is also rather firm er and more active. Syrups and Molasses dull. Rice unchanged.

COFFEE—Fancy Rio, 19⅜; Prime, 18⅜; Good, 17; Fair, 16⅜; Roasting, 15⅜@16.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; other grades, 45@55.

SUGARS—Choice New Orleans, 11⅜; prime, 11⅜ good, 10⅜; fully fair, 10⅜; Porto Rico Sugars, 10⅜@11⅜; Cuba, 10@11; Demarara, 11⅜@12⅜.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12⅜; Extra C, 12⅜; C. yellow, 12⅜.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair, $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 80cts; fair, 60@70c. Bouchong fancy, $1 20; good, 90c; fair, 70@80c. Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9⅜c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

HAY—Baled is selling on wharf and track at $25@30 per ton, according to quality and condition. The market is considerably easier under the influence of increased receipts.

HONEY—We can report sales in a regular way at 25@30 cts per lb, for fair to choice.

HIDES—Green Salted, 10⅜@11⅜; Green Butcher's, 8; Dry Flint, 21@22; Green Calf Skins, 14@15; Green Salted Calf, 17@18.

HUSKS—Quoted at 2⅜@2⅜ cts.

HEMP—Is dull and lower; sales of rough Kentucky at $165 per ton; dressed, 12⅜ cts per lb.

LIME—Perrysburg white, $2,00@2.25 per bbl; Cleveland $2.25; Eastern, $1.75.

MILL FEED—Dull and unchanged.

ONIONS—In better demand and higher; we now quote at $4 00@4 50 per bbl, for choice.

OIL—No. 1 Extra Lard (Pittsburgh make) is quoted at 73@75 cts.

POULTRY—Chickens scarce and wanted, and prices a shade better; 55@60 for young and 75@80 for old.

POTATOES—Continue dull, with a supply largely in excess of present requirements; we now quote at $2,00@2.50 per bbl.

PITTSBURGH CATTLE MARKET.

CENTRAL YARDS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 15, 1871.

RECEIPTS STOCK.

The receipts of stock at the Central Yards for the week ending to-day, were as follows:

	This week.	Last week.
Cattle	407 cars.	356 cars.
Hogs	160 "	100 "
Sheep	92 "	96 "
Horses	21 "	16 "
Mules	5 "	4 "
Total	685 "	572 "

CATTLE.

The receipts as will be seen were considerably in excess of last week, 407 cars against 356, and with very unfavorable advices from the east, the market ruled heavy all week, and prices are off from ⅛ to ¼ a cent per lb. As noted in our report of Wednesday buyers were bearish, particularly those from New York and Philadelphia, and sellers were obliged to make concessions in order to effect sales; some of them, however, in preference to submitting to the decline shipped on further east, and the chances are that they will incur additional expense and fare worse—this is very often the case.

Prime 1,200 to 1,500 lb steers fat and smooth may be quoted at 6@6⅜, good to prime 1,100@1,200, 5,25@5 50; Common to medium 1,000@1,100, 4,5@4,75; Texas steers, 800@1,200 lbs 3,50@4,25; stock steers, 800@1,000, 3,50@3,70. One car load of fancy Indiana steers brought 6⅜, but the same grade, last week, sold at 7 cts.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, July 15, 1871.

The oil market has been heavy all week, and there has been a pretty sharp decline in both crude and refined within so brief a period of time; and the steady decline has not been without its effect in retarding business, as buyers generally, as is nearly always the case on a drooping market, will hold off just as long as there is any prospect of a further decline. Then the reports of increased production have exerted a "bearish" influence, and there are some who a few weeks ago were strongly impressed with the belief in higher prices during the last half of the year, have changed their minds. Judging from the increased offerings from above, it is evident that the producers do not expect any advance, but, on the contrary, indicates that they are apprehensive of a decline; otherwise they would not be so anxious to sell. Refined has dragged all week and closes dull and heavy, with a still further decline in prices, as compared with yesterday.

Receipts of crude this week, 32,392 bbls.; last week, 19,778 bbls.; January 1st to date, 596,833 bbls.; same time last year, 588,571 bbls. Exports refined this week, 18,665 bbls.; against 19,111 bbls. last week; January 1st to date, 219-522 bbls. against 338,593 bbls same time last year. Sales this week, 38,900 bbls. crude; 9,000 bbls. refined; last week, 5,000 bbls. crude, 15,500 bbls. refined.

CRUDE.

Sales of seller all year at 12 cts, a decline of a ⅛ within the past few days. Seller July nominal at 12⅜. Spot at Parker at $4.85@4.90; seller 30 days $4,75; seller all year on creek offered at 4.52⅜; lines July to December offered at $5, at Oil City.

RIVER NEWS.

The river rose fully 12 inches during the twenty-four hours ending last evening, at which time the pier marks indicated 4 feet 5 inches; the rise was mainly in the Monongahela, and in all probability will be of short duration.

The Billy Barsons arrived from Wheeling on Saturday evening with a good freight list, and departed again yesterday morning.

The Arlington succeeded in getting over Glass House yesterday and proceeded on her way to Cincinnati. It is not likely that she will have any further trouble.

The towboat D. T. Lane, aground at the same place, also succeeded in getting off.

The towboat Sam Clarke departed yesterday to bring up a tow of empty barges.

—The Memphis *Avalanche*, of Wednesday, says: Arkadelphia, where Capt. Tennison launched a boat the other day, to be used in clearing out the Little Missouri is at the head of steamboat navigation on the Ouachita river, about 75 miles southeast from Little Rock and 90 miles above Camden. The Little Missouri rises in Polk county, of western Arkansas, and passes through Pike, Hempstead, Clark and Washita, all rich cotton growing counties. It enters the Washita about 45 miles above Camden. When cleared out and made navigable, it will afford an outlet for a large cotton area.

—We clip the following from the Louisville *Courier*: Capt. Y. S. Stafford, of Galveston, Texas, returned from Pittsburgh and Cincinnati yesterday. He visited those places for the purpose of contracting for a new boat for the Brazos river trade, of the following dimensions: 145 feet long, 30 feet beam, 5⅜ feet hold. He failed to contract at either of those places, but will probably contract with the mechanics around the falls of the Ohio.

—Captain Jos. Porter, of the United States snagboat Greenback, requests that all steamers run slow while passing his craneboats, which will be engaged all season in the lower Ohio in removing wrecks and other obstructions to navigation. The Greenback is now engaged in removing the wreck of the S. P. Hibbard, sunk before the war, and now directly in the channel below Falling Run, near New Albany.

—The first boat that ever left St. Louis for Galveston, Texas, will take her departure Tuesday next. She will take the Red river route to La Salle and DeSoto, and those who go on the excursion will have a pleasant and adventurous time of it. The steamer which is to go is the Beardstown, owned by Col. Bell, and commanded by Capt. James P. McKinney.

—The St. Louis *Democrat* of Friday says: Commodore Kountz, of the Kountz Continental Packet Line, has arrived from Sioux City, and is stopping at the Southern with his daughters, Misses Carrie V. and Kattie P. Kountz, after whom were named two steamers well known in our commerce. The Commodore will remain in town till Monday.

—The following large lower river boats are laid up at the places named: Nick Longworth, repairing at New Albany. Glencoe, laid up at Cairo. Robert Mitchell, laid up at New Albany. Charles Bodmann, laid up at Cincinnati. Potomac, laid up at New Albany.

—The City of Quincy took into New Orleans last Sunday an immense cargo. She left there Tuesday with a cabin full of people, including many of the wealthy citizens on their way to Minnesota. Included in her up cargo were over 3,000 sacks salt.

—A St. Louis paper says: The barge company's transportation to New Orleans averaged for the last four months over 3,500 tons per week. The company's present capacity is equal to 7,000 tons per week.

—The Cincinnati *Commercial* says it is reported that Capt. Alex. Swift, the Iron King of Cincinnati, contemplates building an iron steamer similar to the John T. Moore.

—Commodore Kountz, instead of placing the Mollie Moore and Carrie V. Kountz in the St. Louis and Vicksburg trade, designs running them to Memphis.

—The R. E. Lee is laid up, and the Gov. Allen has taken her place in the New Orlean and Vicksburg trade. The Lee is to be overhauled and repaired.

—Capt. D. Barnes, of Galveston, Texas, has purchased the wreck of the Leonidas. He intends transferring her machinery to a new boat.

—The Julia, Rudolph, Belle of Alton and Red Cloud, all fine Red river packets, have been destroyed by fire during the past season.

—Capt. A. M. Hutchinson, late of the S. S. Merrill, has purchased an interest in the John Kyle, and will take command of her.

—The Tobe Hurt is going to run from Hickman to Cairo, in connection with the Nashville and Northwestern Railroad.

—The Cincinnati and St. Louis Express-line has discontinued its operations until after the canal is completed this fall.

—Next Thursday the Louisville canal closes, and this will cause a suspension of steamboating at Cincinnati.

—It is said there are 7,000 cattle at Shreveport, up Red river, awaiting transportation to New Orleans.

—There will be 11,000 yards of stone used in building the dam in the Ohio River above Marietta.

—We are informed by Capt. W. S. Evans that ice is only 10 cts per cwt. at Sioux City.

—The Exchange has been withdrawn from the Cincinnati and Pomeroy trade.

—The Exchange has been laid up at Cincinnati.

—The dam at Marietta has been completed.

ORDINANCES.

AN ORDINANCE—Authorizing the Grading, Paving and Curbing of Frankstown avenue, from Penn avenue to Fifth avenue.

WHEREAS, A majority in interest of the owners of property abutting on Frankstown avenue, from Penn avenue to Fifth avenue, have presented a petition in writing asking that the same be graded, paved and curbed under the provisions of the Act of April 2, 1870, therefore,

SEC. 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same That Frankstown avenue, from Penn avenue to Fifth avenue shall be graded, paved and curbed under the provisions of an Act of Assembly, entitled "An Act to provide for the improvement of Penn avenue and other avenues and streets of the city of Pittsburgh, approved April 2, 1870.

SEC. 2. That an election of Five Commissioners shall be held at such time and places as the officers herein appointed shall designate; said election to be conducted in the manner directed by said act.

SEC. 3. That Joseph Gansler, Daniel McGurn and Samuel Crawford are hereby appointed as officers of the election herein provided for, who shall give notice of the time and place of holding the same as directed by said act.

SEC. 4. That any ordinance or part of ordinance conflicting with the passage of this ordinance at the present time, be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils, this 8th day of May, A. D. 1871.

A. H. GROSS, President of Select Council.

Attest: E. S. MORROW, Clerk of Select Council.

H. W. OLIVER, JR., President of Common Council.

GRATES.

GRATES.

Keep Your Houses Clean, AND SAVE FUEL.

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE.

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, prove so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner Third avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

The Rooms of the Y. M. C. A. will be closed for a thorough cleansing on Tuesday, Wednesday, Thursday and Friday of this week. During these days the noon-day prayer-meeting will be held in the S. S. room of the First Presbyterian church, Wood street.

J. S. Golden, Esq.—The announcement in the GAZETTE of Saturday that this gentleman had committed suicide was derived from a letter in the Titusville *Herald*, over the name of a respectable citizen of Kittanning. This letter, we are happy to state, was a forgery, and Mr. Golden "still lives."

Severe Cut.—On Saturday evening, John Bopp, a butcher living in the Seventh ward, Allegheny, cut himself in the arm with a butcher knife, severing the radial artery. The cut was quite severe, and bled profusely. The injured man was taken to Dr. F. Scherer's office, where the wound was dressed.

Applied for Charter.—Application was made in the Court of Common Pleas on Saturday by the corporators of the Roman Catholic church in Mifflin township for a charter of incorporation of the St. Peter's Beneficial Society. The articles of the constitution of the society were presented, and the Court, after examining the papers, ordered a notice to be published for three weeks, after which, if no objection be made, the charter will be granted.

Barratry.—David Ford was before Mayor Brush on Saturday on a charge of entering prosecutions against several saloon keepers for the purpose of extorting money from them. The information was made by Officer George W. Garrison. It would seem that the wrong-doings of David in this way are by no means few or far between. In default of one thousand dollars bail, for a hearing this afternoon, the accused was committed to jail.

Drowned in the Allegheny.—At an early hour yesterday morning a man named Patrick Davin, who resided at Negley's Run, on the bank of the Allegheny river, about seven miles above the city, was drowned while bathing. He had disrobed himself and waded out on a raft, from which he jumped into the water, and it is supposed he was taken with cramp, as he at once sank and was seen no more. The neighbors soon collected, and upon searching for several hours, succeeded in recovering the body. Notice was sent to the Coroner's office.

A Burning Well.

An oil well near Leechburg, on the Western Pennsylvania Railroad, took fire Saturday morning, producing great excitement in the neighborhood. The well was being drilled for oil and had reached the depth of 1,200. On the 4th inst., a vein of water was struck, and the column was forced fully one hundred feet above the top of the derrick. The water and gas flowed uninterruptedly ever since that time. Saturday morning the gas ignited, and the flames shot up to a highth of seventy-five feet. Steps were taken immediately to smother the fire, but at last accounts they were unavailing.

Suspected Foul Play.

A woman came to the city Saturday morning, from the vicinity of Alpsville, in search of her husband, who she stated left home three weeks ago. She stated that she believed the body found in the Monongahela river a few days ago, with a weight attached to the neck, was that of her husband, and that he was murdered. He started for Connellsville, she says, with a hundred dollars in his pocket, and she fears he has met with foul play. The body will be disinterred, we understand, in order to afford the woman an opportunity to examine it. The woman did not give her name.

Growth of the City.

Any who are in doubt as to the growth of the city, can easily have all such uneasiness dispelled by a tour around the suburbs. Activity and progress are manifest everywhere. Hundreds of houses, all styles of architecture varying from the little cottage to the elegant villa, are being constructed as fast as hand can toil and brain plan and yet the supply is not equal to the demand. The city seems to be "literally spreading" and encompassing a territory which, in earlier plans, would not have been embraced by the most sanguine prophet. Continuing a few years longer to increase in population and wealth in the same ratio, Pittsburgh will not, as now, be the thirteenth city in the list of great cities of the Union, but up among the first in rank.

Sent to Dixmont.

The case of Patrick Bonner, an insane man, was before the Court on Saturday. The petition of James Bonner, a relative of Patrick, sets forth that Patrick Bonner, an immigrant lately from the county Donegal, Ireland, came to Alpsville, Versailles township, on the 9th of July, 1871, in a state of mind bordering on insanity; that he came there from Six Mile Ferry, at which place he arrived on the 5th inst.; that he landed in New York from Ireland on the 2d or 3d of July, and made his way to Six Mile Ferry by the 5th. The petition concludes by asking the Court to take the usual steps in such cases, which resulted in a hearing of the case on Saturday, after which the Court made the following order: "Patrick Bonner, found to be insane, &c., is directed to be committed at the expense of Allegheny county, to the Western Pennsylvania Hospital."

Accident at Fifth and Smithfield.

At half-past five o'clock yesterday afternoon a spring wagon, driven by Mr. J. Lang, of Allegheny, and containing Mr. L.'s wife, their two little girls, and Mr. George Hoge, was overturned at the corner of Fifth avenue and Smithfield street, and the occupants thrown out upon the street. Mr. Lang's right arm was dislocated at the elbow, and his wife and children were slightly bruised. A carriage was procured at Patterson's livery stable, in which the injured ones were taken home. The horse attached to the wagon ran away, dashing down Fifth avenue at a terrible rate, dragging the vehicle bottom upward. At Wood street Mr. Solomon Kline, of Lawrenceville, saw the horse and wagon coming, and taking in the situation at a glance, he ran out and stopped the animal. This accident resulted from rapid driving, and an attempt to make a very short turn at the street corner.

Conjugal Disturbances.

The domestic grievances of Mrs. Anna M. Brown were made the subject of a petition filed in the Court of Common Pleas, Saturday morning, by her best friend, Wm. O. McKinley, in which she avers that her conjugal career was commenced, to all appearances happily, on the 20th day of August, 1868 and that until June 27th, 1871, she continued to live with her husband, John Brown, but at that time insult and injury, which for some time previous had been making her life miserable, culminated and she was compelled to leave the house. She now desires to be separated from the hymeneal bonds which connect her with the offending John, and ask further for such alimony as is consistent with his circumstances in the judgment of the Court. A subpœna was awarded, and the case will be investigated.

The Court appointed a commissioner in the case of Rachel Graham, who desires to be released from all allegiance to her husband John Graham.

Adopting the Boys.

Saturday morning a petition was presented in the Court of Common Pleas from Henry and Sarah Osborne, asking that Henry Goodall and Michael Smith be declared their legally adopted children. The petition set forth that Goodall was twenty years of age; that both his parents were dead and that for several years past he had found a home in the Osborne family. In relation to Smith it was stated that he was but nine years of age, that he had been adopted by the Osbornes in 1865 when his mother died, and that his father, who seems not to have been possessed of a superabundant degree of affection, had not visited him for three years, and in fact had so absented himself that his whereabouts were not known.

The petition was accompanied by affidavits establishing the moral character of the petitioners and their request was accordingly complied with. Each of the boys having the name of Osborne affixed to their other titles.

MIRACULOUS ESCAPE.

A Child Falls Ten Feet Out of a Window.

A little child of Mr. L. Smith, residing in West Pittsburgh, met with a serious accident on Friday evening. The child, which is only about five years of age, was leaning out of the window which is in the second story about ten feet from the ground when it lost its balance and was precipitated to the ground. Dr. J. P. McCord was immediately sent for, but before he arrived the child was seized with convulsions, and every moment was expected to be its last. It has since so far improved as to place it beyond immediate danger, though it is feared that the little fellow has sustained internal injuries that may yet develop themselves.

COLLISION.

Two Trains on the A. V. R. R. Collide—Twelve Persons Injured.

On Saturday at about half past five o'clock two freight trains collided on the Allegheny Valley Railroad, near Smoky City station, a short distance from Franklin, by which a number of persons were seriously injured. The trains were both bound south. The first section, having a coach attached for the purpose of carrying passengers, had stopped at Smoky City station to let some passengers off, and was just moving off when the second section came dashing around a short curve and into the rear end of the first section. There were about twenty-five persons on board, but most of them jumped from the train in time to save their lives. Twelve persons were badly hurt in all. Trains were delayed several hours by the accident, but the road is again clear.

MAGISTERIAL GRIEF.

A Justice in Trouble—Charged with Misdemeanor in Office—The Story of the Prosecution.

Those genial and generally jovial guardians of the law, aldermen and justices of the peace, betimes have the usually peaceful current of their magisterial lives disturbed by unpleasant ripples—an unpleasant fact, the force of which is just now being disagreeably experienced by Justice Elsesser, of the Borough of Etna, near Sharpsburg. The trouble happens to the dispenser of justice in this wise. On the 8th day of May last an information was made before him against one John Shultz for forgery. The accused was arrested on the 23d of the same month—after great trouble it is said—and the case came up for a hearing. This, however, was postponed, and it is alleged that the Justice made entries on his docket that John Shultz and his counsel, Thomas M. Marshall, had given bail for the appearance of the accused for a hearing May 27th—the bail being fixed at $1,200. On the appointed time came, but not Shultz, and then it appeared, so the allegation goes, that the entry in the docket was false, and that Mr. Marshall had never been at the office, and did not sign any bail.

In the meantime the aggravating circumstance connected with the case was the fact that the accused party has "skipped" and has not put in an appearance since; it is believed that he has left the State.

The information was made against the Justice by Michael Shultz, the party whose name is said to have been forged, and who suffers by the absence of the other Shultz, his nephew.

Alderman Eggers had the case up before him on Saturday, when Justice Elsesser waived a hearing and gave bail in the sum of $2,000 for Court.

SUICIDE OF A STRANGER.

He Dies in a Field Near Perrysville from the Effects of Morphia—A Bequest of Property and Other Evidences of Premeditation—No Coroner—No Inquest.

A case of self-destruction containing many peculiar and interesting circumstances occurred yesterday afternoon, in the vicinity of Perrysville. The scene of the suicide is at a point known as "Roedelheim's Hill," a short distance from Keating's Hotel. It appears that a young Mr. Roedelheim was walking through a field about seven o'clock yesterday morning, when he discovered a man lying under a tree. He approached him, found him snoring heavily, as if in a deep slumber, and supposing that the man was drunk, Mr. R. did not molest him. About two o'clock in the afternoon Mr. Roedelheim had occasion to go that way again. This time the stranger was motionless, and it was soon ascertained that he was dead. The news spread rapidly through the neighborhood, and ere long a large crowd of country people had collected around the dead body. Not one there, however, would touch the corpse, as people generally have the impression that the law forbids any interference in cases of this kind until the arrival of the Coroner.

At length two gentlemen of this city and Allegheny, Messrs. H. B. Smithson and A. W. Erwin, came upon the scene, and they at once proceeded to examine into the case. Finding that no one would take the responsibility of examining the dead stranger's effects, they searched his pockets, finding a silver watch, $108.75 in money, and two or three letters. They also discovered in one of the pockets a bottle filled with sulphate of morphine, and by the side of the corpse another bottle about one-third full of the same drug.

HIS NAME AND RESIDENCE.

From papers found in the pocket of deceased it appears that his name was Thomas A. Coulson, and that he had formerly resided at Youngstown, Ohio. There were other documents to indicate that he was well-known to persons in Altoona, and Petroleum Center, and that his relatives reside in Europe.

HIS DISPOSITION OF HIS EFFECTS.

In an inside pocket of his vest was found a neatly folded slip of paper containing the following, written with a pencil: "Send my pocket book to Mrs. B. Schlesenger, Petroleum Center. All my stock to be divided between Mrs. Hollingsworth, Youngstown, Ohio, and Mrs. B. Schlesenger, Petroleum Center: two-thirds to go to Mrs. Hollingsworth, and one-third to Mrs. Schlesenger. THOMAS A. COULSON."

ANOTHER BEQUEST.

A letter was found in one of his coat pockets, dated at Altoona, and signed G. A. DeArcy, containing a description of the town, its workshops, etc. Across a blank page of the paper was written with a pencil the following: "Please take the three dollar silks and divide between yourself and Annie. The two and a half dollar silks you will give to Miss Emma Parritt, or *vice versa*, as a token of my regard and esteem for you." In another place was written "Snady DeArcy: If you visit Europe, tell the folks the life I have lived in Youngstown."

INDICATIONS OF GREAT SUFFERING.

The appearance of the corpse indicated that the unfortunate man must have suffered great agony. The body was lying upon the ground face downward, the head resting on the right hand, the fore-finger in the mouth, with the teeth sunk into the flesh and firmly set. The nether lip was also considerably bitten, and a piece bitten from the upper lip.

THE WATCH, MONEY AND PAPERS

were taken charge of by Messrs. Smithson and Erwin, who, after counting the money and making a note of the amount, placed it, together with the other effects, in the hands of Justice Peter Ivory of Ross township, who will hold the same until called for by the Coroner. Meanwhile the body lies in the field where it was discovered, awaiting the arrival of the proper officer (the Coroner) whose whereabouts yesterday could not be learned, notwithstanding the fact that there were no less than four cases claiming his attention.

THE DECEASED.

Nothing further is known of the deceased than that which was learned from the papers found in his pockets, and there was nothing to give the slightest clue to the cause which prompted him to do the deed. From the mention of "silks" and "stock" in the memoranda, however, it would seem reasonable to suppose that Coulson was a merchant or peddler, most probably the latter. He appeared to have been aged about forty years.

AN EXPLOSION FEARED.

Mr. Kirk Tries to Build Another Powder Magazine—Residents in the Neighborhood Object—A Preliminary Injunction Granted.

Mr. Arthur Kirk seems to have considerable trouble in securing a place to keep his powder dry. His troubles commenced with his appearance in mercantile circles as a dealer in this explosive article and all his efforts to establish or construct a magazine were heartily opposed—and perhaps naturally too, for few people consider a powder magazine a desirable attraction in the neighborhood of their premises. Mr. Kirk's latest trouble comes from an attempt to locate in a spot about a mile and a quarter north east of Sharpsburg. Remembering his former experiences, he seems to have been duly cautious in the selection of a site, and at last settled upon the one indicated, where according to his averments "the building could not be seen from the residence of any persons residing far or near in the country round-about." The country is rocky and diversified by hills and deep ravines, which to a landscape painter would have but little attraction, but which were especially attractive to the business vision of the powder dealer—so attractive that he was induced to purchase about nine acres of the land, for which he paid $5,500.

No sooner, however, had he commenced the proposed building than he encountered opposition from all within a radius of several miles, and finally as he continued, the matter was brought to the attention of the courts, in a petition presented by Mr. James G. Weir, *et al.*, for an injunction. The petitioners set forth their grievances in a lengthy paper, in which they claimed that the proposed magazine, by its location, was dangerous to the safety of a section of country thickly settled, that it was near to the public road, that it was not being properly constructed, &c., &c. In answer, the respondent, Kirk, denies the supposed population of the country round about, and claims that the magazine is hid from the road by a steep, solid slate embankment seventy-five feet high, that the excavation into the solid slate and flint rock is deeper than the proposed height of the building, and that the building is being erected in a deep ravine, out of sight, and surrounded on all sides by high hills, and that every care is being used to make it complete and safe in every respect.

The matter first came up in the Court June 8th when Mr. Charles S. Fetterman was appointed Commissioner to take testimony. It was again before Court on Saturday when a preliminary injunction was granted restraining the respondent from occupying the building or proceeding with the work until further orders. So the matter rests, and for a time the petitioners may enjoy serenity.

SAD CASE OF DROWNING.

A Little Boy in Attempting to Rescue his Friend is Himself Drowned.

A little boy named Edwin Wells, was drowned in the Monongahela river on Saturday afternoon under circumstances of a most distressing nature. The little fellow was bathing in the river just below Dam No. 1 with several of his comrades, when one of them got beyond his depth and Wells attempted to rescue him. He had almost succeeded when his exertions proved too much for him. When it became evident that both boys were drowning a third comrade jumped in and succeeded in bringing the first boy safely to shore, but the hero, Eddie, becoming powerless with exhaustion sank for the last time while the other was being rescued. The little fellow was about thirteen years of age and resided in St. Patrick's alley Sixth ward. The river was dragged for some distance and the body was finally recovered and the Coroner notified.

POLICE ITEMS.

Brief Mention of Criminalities.

Saturday evening James Goughney was sent to jail for trial by Alderman McMasters, on a charge preferred by Wm. Haley of keeping a disorderly house.

Michael Roche was committed to jail Saturday afternoon by Alderman Floyd in default of $300 bail for a hearing on Friday afternoon, on a charge of larceny preferred by one O'Brasher.

Thos. Coverney was charged before Alderman Neeper with larceny, on oath of Samuel Hardy. The allegation is that the accused stole a saw with some other tools and some paints from the furniture store of Joshua Splane. A warrant was issued.

Hubley's Steam Wash Boiler—A Great Success—Its Use Recommended.

We have often had our attention invited to patent washing machines, so great a desideratum to our wives and housekeepers, but each one in turn fails to give the complete satisfaction that is claimed for it. The man who will invent the machine which will lighten the severe labors of wash day will receive the hearty benisons of our women folks during all time. We are fully persuaded that the correct idea has at last been applied. This is the principle of the Hubley steam wash boiler. The clothes after undergoing a thorough soaking over night, are placed in the boiler without previous rubbing, and are subjected to a saturation with steam, which penetrates every thread and fibre, and frees from them the adhering dirt. After they are taken from the boiler, there is scarcely any rubbing on the board needed, so thoroughly are they cleaned in this process. We have carefully examined this invention and its practical results, with a view to writing this notice, if they proved satisfactory.

We cordially, and without the least hesitation, endorse all that is claimed for it, and recommend it to every housekeeper who reads this, satisfied that we are doing them a favor, and one which they will thank us for. The price at which Mr. Hubley sells these boilers (or we ought to say dirt eradicators, which fit inside of any boiler,) is so low that the poorest washerwoman can buy one, and thus lighten her labors. Having fully endorsed them, and heartily recommended them, we can say no more, unless we add, go at once to Hubley's, No. 68 Federal street, Allegheny, and secure a machine which is warranted to do your washing in one-half of the usual time, and with less than half of the labor and expense for soap.

Amusements.

ACADEMY OF MUSIC.—During the present week, we are to have "cork-opera" of the most refined and delightful description at the Academy. The renowned Manning's Minstrels will open there Wednesday evening, and will appear each evening during the week and at a Saturday matinee. This troupe embraces some of the best talent in the country, and includes several of the leading stars in the minstrel profession. The company have a number of new and original burlesques which have never been produced in this city and which, if we are correctly informed by the press of other cities, will surely take the audience by storm. The company consists of twenty-four performers and is, we believe, the largest minstrel troupe extant.

TRIMBLE'S.—The female troupe make their first appearance this evening, at Trimble's Varieties. The beautiful play entitled "Under the Snow," together with other fine performances, will be given.

PITTSBURGH OPERA HOUSE.—Hart, Rymen and Barney's Minstrels, an organization which has attained great celebrity, will open at the Opera House, Monday evening, 24th inst., and will remain one week. Johnny Hart, an old Pittsburgher, known to every amusement goer, is one of them.

SOME of the members of the Pittsburgh Barge Club, design taking one of their boats to Chautauqua Lake by rail, and rowing thence all the way to Pittsburgh. The route has been definitely decided upon, and reliable information has been received from old Allegheny river boatmen, that there is no obstacle in the way. Uninterrupted barge navigation is guaranteed all the way. A sprinkling can is to be taken along, and with its assistance there will no trouble skipping over the bars.

MR. A. S. HAWKINS, for the past two or three years the skillful and courteous manager of the Duquesne Way branch office of the Pacific and Atlantic telegraph company has resigned his position, with the intention of engaging in the oil brokerage business, on Duquesne Way. He has formed a partnership with Mr. W. S. Batchelder, under the firm name of Batchelder and Hawkins, and hereafter will be found at the office of the firm. We wish success to the gentlemen, and know that they will earn it.

AN instrument has been invented that marks "the ebb of time," showing how many minutes there are prior to any event. If placed in the postoffice it reads: "Mails open in thirty minutes;" one minute later it reads: "in twenty-nine minutes;" then in twenty-eight, and so on. At a railroad station it reads: "This train leaves in ten minutes," then in eight, etc., and when the index reaches 0 it starts. Thus any passenger on entering a station knows just how much time he has for getting tickets, checks, a newspaper and a seat without consulting a watch or a clock to ascertain the hour of the day.

Old Mortality Once More.

I cordially commend the latest effusion of our aged friend to the tender consideration of a kind public. He shows less of that acerbity which has marked all of his past life, and exhibits genuine traces of improvement in his last—well, call them "reveries of an antediluvian, that is the most fitting title I can think of. Under my treatment he certainly gives evidence of a change of mind, if not of heart, and I am encouraged to persevere in the good work of teaching "our old codger" how to demean himself whilst in the company of us moderns. There are no particularly sour symptoms developed in this week's "recollections;" if I skip the allusion made on our merchants, etc., in the following words: "Contractors in *that day* being gifted with a higher degree of personal integrity or less business skill than those of more modern times." This is not very severe and the contractors of these "more modern times" must stand this fling, as there is a saving clause in it.

Passing on, we read a very pathetic and interesting "recollection" in reference to one Peter Marmie, who flourished hereabouts, we are told by our "Old Druid," in the year 1768. We cannot conceive of a more highly colored and thoroughly imaginative sketch of our early times than this; and it is quite pathetically related too, sufficiently so to bring "tears to the eyes of those unaccustomed to weeping." I advise all to read it, it will repay them well. It is thrilling.

Old Gov. is hard on "carpet-baggers," but with a genuine respect for their feelings, which is highly commendable, he muffles his "sarkasm" beneath the soft disguise of such a phrase as this: "The old residents, who have been in many cases thrown into the shade by what once were rather severely called *new-comers and stray folk*." These latter are now-a-days more vulgarly called "carpet-baggers and scallawags" by modern disciples of "Old Mortality's" school of politics, but he, good soul, avoids such cant phrases of the common horde, "and draws it mild."

I will close this brief notice of our antique friend's latest effort by simply referring to the side-splitting story which he relates about "Charley Ernest (rather familiar with him one would say, after admitting that he had but a slight acquaintance with him) and the wagoner." To be sure, the story, we are informed (uselessly) would be enjoyed much more in the relation, as given by Harvey Bollman, than in the perusal of it, as set down by "old Methuselah." We do not much wonder at this, but the inimitable style of the latter pervades this description of the interesting scene throughout, and makes it read like a passage from "Ivanhoe" or the "Knight of the Red Cross." Afterwards he tells us, "the story is a good one"—as if we did not know it, after reading his thrilling narration of it—but modestly adds "it must be told by Harvey, himself, to have it in its *freshness*," (is "old Mortality" STALE, in his story-telling?) "The narrator must be put behind a curtain"—a board partition will not do, in order to "keep up the make believe," that two voices are engaged in the wonderful recital of the wonderful story of the "banker and the wagoner, or the great apology." Good bye, Pap. Keep the ice on another week; you are improving.

REOPENING.

Christ Church M. E. Sunday School—Improvements Made in the Schoolroom—Interesting Services.

Yesterday was an occasion of great interest to the friends and members of the Christ M. E. Church Sunday School, as it marked an important episode in the history of the organization. Some time ago the schoolroom was closed for the purpose of enabling certain changes to be made in its furnishment, etc., and in the interval the apartment, through the efforts of skillful artizans, has been transformed from a somewhat dilapidated dingy room to one of the most comfortable and attractive in either city. This has been accomplished at an expense of about $1,600, first by frescoing the walls and ceilings in white, which renders the apartment much lighter and more cheerful. The bank wall which formerly separated the infant rooms from the main school has given place to glass folding doors. The Superintendent's platform has been remodeled and rendered an attractive sight by a large fountain, from which during school hours the silvery jets are constantly flowing. The old antiquated speaker's desk is no more, but on each side of the fountain, neat stands of a modernized style afford accommodation in this respect. The floor has been covered throughout with pretty ingrain carpeting; cane seat chairs in sections, so as to allow parellell or semi-circular arrangement,—have been provided; and last but not least, the room has been furnished with chandeliers of a new pattern, but exceedingly tasteful in design. The metamorphosis has been complete indeed, and those interested may well indulge in congratulations.

The reopening services under the circumstances could hardly fail to be pleasant, and the large attendance of others not connected with the school attested the general interest felt in the success of the enterprise. Liberty street school especially was well represented, by a delegation, which took part in the exercises and acted not a little in rendering them attractive. The Superintendent's Platform was occupied by a number of ministers, who participated in the services. The fountain was very beautifully trimmed with flowers, when freshness and fragrance lent a charm to every surrounding, and formed a feature of the occasion which won commendation from all.

It was fully three o'clock before all had assembled and then the services were commenced the singing of a hymn, followed with prayer by Rev. Mr. Leonard of Smithfield Street Church. The regular exercises were then taken up when the Rev. J. McKendree Reilly, of Louisville, a former pastor of the church, made a very excellent and appropriate address, which was followed with brief remarks by the Rev. L. M. Gardner of the Liberty Street Church.

At intervals the other exercises were interspersed with singing, during which Prof. G. M. Alexander led the children, Miss Sue Horn presiding at the organ. The musical exercises were especially attractive and seemed to be highly enjoyed by all. The services were quite brief, occupying but an hour in their continuance, the audience at the close being dismissed with the benediction by the Rev. Dr. Pershing.

Regular sessions of the school will be held every Sabbath. The enterprise is in charge of Thomas Bakewell, Esq., one of the most practical and efficient of Sunday School workers, who is ably seconded in his efforts by the zeal and experience of Mr. John G. Holmes, the assistant Superintendent. Judging from the evidences of interest manifested everywhere yesterday, among teachers and scholars, they have nothing to discourage, but every favoring augury for the future.

THE COURTS.

Saturday's Proceedings.

U. S. COURT—JUDGE M'CANDLESS.

The attention of this Court was occupied with routine business for about half an hour, when it adjourned.

To-day all the officers connected with this Court will leave for Erie where the Court will convene. The session, it is expected, will continue two weeks, and some unusually important cases will be tried. U. S. Attorney Swoope takes with him a batch of new bills, thirty-one in number, which are to come before the Grand Jury. The list comprises two cases of stealing letters containing money, thirteen of frauds in selling liquor, four frauds in selling tobacco, five cases of conspiracy, four of forgery, two getting letters belonging to other parties. In addition to these there are forty-nine cases on the old list, in which true bills have been found. The Court will be pretty busy to get through in two weeks.

QUARTER SESSIONS—JUDGE STOWE.

Thomas Dowling and Amos Maitland, convicted of assault with intent to rob, were the first ones arraigned for sentence. The defendants, with another party named Charles Simmons, who was never arrested, were indicted for having attacked Joseph McIntyre upon the public road in Temperanceville, on the 15th of March last, and knocked him down with the spoke of a wagon wheel, with the intention of robbery. The Court sentenced Dowling and Maitland each to pay six cents, the costs of prosecution, and to undergo six years' imprisonment in the penitentiary.

John Fogis, found guilty of attempting to rescue a prisoner from Constable P. G. Hyer, was sentenced to pay the costs, a fine of ten dollars and serve ten days in jail.

Wm. Jones, convicted of the larceny of a watch-chain valued at fifty dollars, from Joseph Moffat, was sentenced to pay a fine of six cents, the costs, and to undergo three years' imprisonment in the penitentiary.

John McBride, who plead guilty to the larceny of a velvet coat, valued at $50, from G. H. Ormsby, Jr., was ordered to pay the costs, a fine of six cents, and to serve one year in the Work House.

Thomas Lock, found guilty of the larceny of a pocket-book containing sixty-five cents, was sentenced to pay the costs, a fine of six cents, and to undergo three years' imprisonment in the penitentiary.

Charles W. Seler, convicted of Sunday liquor-selling, was ordered to pay a fine of ten dollars, the costs of prosecution, and to serve twenty days in jail.

Max Hartwig, convicted of Sunday liquor-selling and selling without license, was sentenced on the former to pay a fine of ten dollars and costs, and serve ten days in jail, and on the latter to pay a fine of fifty dollars and costs.

C. C. Smith, who plead *nolle contendere* to selling liquor without license, was directed to pay a fine of fifty dollars and costs.

Samuel Hardy had a fine of one dollar and costs imposed upon him for an assault and battery on Elizabeth Cavena.

John Lynch, found guilty of keeping a ferocious dog, M. C. Hardwig, prosecutor, was directed to pay a fine of ten dollars, the costs and to "abate the nuisance forthwith," which interpreted means that the animal shall either be removed or suffer death.

In regard to the case of Michael Dougherty, indicted for seduction of Annie Ford, it being shown that the parties since were married, a *nolle prosequi* was entered.

William Clinton, who plead *nolle contendere* to a charge of adultery with Mary Golthart Smith, was sentenced to pay a fine of six cents, the costs of prosecution, and to undergo six months imprisonment in the work house.

SUDDEN DEATH.

A Man Eats his Dinner and in a Few Moments Dies.

An old gentleman named Louis De Hahn, a dealer in second hand clothing at No. 57 Fifth avenue, died very suddenly about half-past two o'clock yesterday afternoon. The deceased has been consumptive for some years past, being of late unable to attend to his business, although not confined to his bed. Yesterday he went to the residence of his son-in-law, Mr. Israel De Roy, on Webster street, and took his dinner there, apparently in as good health as he had been for some time. After dinner he told his daughter, Mrs. De Roy, that he would lie down an hour. He had hardly got into bed, however, till he was heard to call to his daughter, "My God, come and look at me." A gentleman named Casey, who was near the house at the time, heard the call, and rushed in with Mrs. De Roy. He raised the old gentleman a little, when the blood rushed out at his mouth and nostrils, and he sank down and died in a few moments. Mr. De Hahn leaves a wife and a large family of children. Mrs. De Hahn and Mr. De Roy, at whose house the sad occurrence took place, are both absent in the country. Word was sent them by telegraph concerning the sad affair.

A Card to the Public.

You are respectfully invited to call at Stevenson & Cartwright tin and stove emporium, 158 Federal street, Allegheny, to see something wonderful in the art of washing. A wash boiler is in operation that will wash clothes in thirty minutes beautifully white and clean without a particle of rubbing. It really does away with all the hard labor of washing. Come and see the little wonder in operation. You will be astonished at its work. I challenge any apparatus in the country to equal Robb's Aniamatic Wash Boiler.

BALTIMORE.

Mrs. Wharton Indicted.

BALTIMORE, July 15.—In the Criminal Court of Baltimore city to-day, Judge Gilmore presiding, the grand jury came in with two presentments against Mrs. Elizabeth G. Wharton, the first for feloniously, wilfully and with malicious aforethought killing and murdering Gen. Wm. Scott Ketchum, U. S. A., by administering artaric emetic or some other poisonous drug on or about the 29th June, 1871, and the second presentment for attempting to murder Eugene Vanness by administering poison, about the same time. There were eighteen witnesses before the Grand Jury, among whom Mr. and Mrs. Eugene Vanness, Mr. and Mrs. Henry Snowden, Dr. R. C. Williams, Dr. Shaw, W. M. Brice, Paymaster General U. S. A., and Dr. Aiken, Professor of Chemistry in the University of Baltimore. The Grand Jury was composed of some of the most influential citizens of Baltimore, one of the members being a prominent State Senator. As the case is not bailable the Sheriff will take Mrs. Wharton into custody this afternoon. The case causes intense excitement.

Intelligence of the presentment by the Grand Jury was communicated to Mrs. Wharton by counsel, shortly after two o'clock. Soon thereafter Sheriff Albert, accompanied by Marshal Gray and Deputy Marshal Frey, in two carriages, arrived, the carriages stopping in the rear of Mrs. Wharton's. At twenty minutes to four o'clock Mrs. Wharton and daughter with Mrs. Crawford Nelson and Sheriff Albert took one carriage, and the Marshal the other and drove to the jail, the mother and daughter deeply veiled. Mrs. Wharton was then handed into the custody of the warden of the jail. She selected an empty cell which she was permitted to furnish in the plainest manner, and her daughter allowed to remain with her during the evening. While the case has shocked the entire community, the deepest sympathy is manifested for the lady.

CONCORD, N. H.

The Senate.

CONCORD, N. H., July 15.—In the Senate this afternoon, Senator Smith, from the Tenth district, rose to explain his position relative to charges against him. He denied in general any duplicity of action or violation of the pledge given, if any had been given, and rested in the belief that he should go down to his grave in full fruition of an unblemished life. As to the report that his son was to have a $2,500 clerkship, as compensation for his positon in the Senate, he knew nothing about it. No bribe had been offered him by the Republicans, and of others he would say nothing.

Senator Jones regretted that the explanation had been put off to the closing hours of the session. He knew from his own personal knowledge the Senator had related his assurances, others knew it, and above all God knew it. He hoped the Senator might rest in peace, but intimated that he must be possessed of a compensation conscience.

Senator Cram asked if the Senator from the Tenth denied or in any way questioned his published statement of a conversation held with him, (Smith.)

Mr. Smith replied that he did not arrive in the city on the morning in question till half past nine and they could not have much time to talk as they soon came to the Senate Chamber.

It was expected Smith would make a very strong vindication, and great curiosity to hear him prevailed, but it fell far short of meeting these expectations.

The Legislature adjourned to-day *sine die*. The Republican Senators met at Rumford Hall this morning and passed a resolution complimentary to Senator Smith for his fearlessness, patriotism and legislative action, in which members of the House concurred.

OMAHA.

Silver Mines.

OMAHA, July 15.—Parties have arrived at Rawlins, Colorado, from the new Seminole mines north of that place to-day, bringing with them specimens of silver ore found two miles northwest of the gold mining district. The specimens are reported very rich resembling in character the ore of the celebrated Emma mine of Utah. Stampedes from the gold to the silver mines are reported which are forty or fifty miles north of Rawlins Station.

Fire.

BELLEFONTE, July 15.—A large fire broke out here last night burning nine stables, one residence, the post office, six stores and two law offices. Loss $40,000, partially insured. The work of an incendiary.

ST. LOUIS.

The Indians.

ST. LOUIS, Suly 15.—The Fort Smith, Arkansas, *Era*, of July 3d, learns from United States Marshals McLemore and Barr, that Satanta and Big Tree, the Kiowa chiefs who were captured at Fort Sill when General Sherman was there and sent to Austin, Texas, attempted to escape from prison, and actually released themselves from the shackles by gnawing the flesh from their hands and feet, but were discovered and shot dead. Marshals McLemore and Barr report that the people of the Texas frontier are very uneasy lest there should be a general outbreak of the Reserve Indians on the settlements to take vengeance for the death of these chiefs.

FAMILY POISONED.

The Huntsville, Missouri, *Citizen* says the family of President Rodgers in Columbus were poisoned last Sunday by some unknown villain who put arsenic in a vessel containing milk which was standing near the well. Nine members of the family drank of the milk and were immediately prostrated and it was only by prompt medical aid that they were saved from death. All are now doing well except Mrs. Rodgers who is still suffering. The President himself was absent from home at the time and of course escaped.

FIRE.

ST. LOUIS, July 16.—A fire was discovered about three o'clock this morning in the basement of the clothing store of N. Keiler & Co., northeast corner of Fourth street and Washington avenue, and before it could be subdued the stock was burned and damaged by water. He reports his stock worth $80,000; insured for $75,000, but the names of the companies could not be ascertained. Loss about twenty thousand dollars.

DISTRESSING.

The Bethany, Missouri, *Tribune* gives an account of a distressing occurrence which took place at the house of Marion Hamilton, six miles from Cainsville, Missouri on the night of the 5th inst. It appears that Mr. H. buried one of his children that day which so affected his wife as to render her insane and several neighbors had come in to stay with them. Shortly after a violent storm came up very suddenly from opposite directions, the clouds of which met just above the house, and out of which a furious wind sprung, swooped down on the house and tore its roof to fragments. The roof of a corn crib near by was also blown off and carried against the chimney of the dwelling, which was thrown down inside the house and crashed through the upper floor wounding eight of the eleven persons in the house. Most of these were wounded very badly, several bones were broken, and in one case a skull fractured. No other locality seems to have been injured by the storm.

ROBBERY.

Clay M. Smith, an employee on the steamer S. S. Morrill, was arrested yesterday, charged with committing a heavy jewelry robbery at Keokuk five days ago. A valuable gold watch found on Clay answered to the description of one of those stolen. The house of John Smith, who lives in this city, was searched and a large lot of jewelry and clothing, worth probably a thousand dollars was found some of it being that stolen at Keokuk and some of it belonging to Ed. Rockwau, whose store on Franklin avenue was robbed some time ago. It appears that these men belong to a regular gang who operate on steamers traversing the upper Mississippi river and also commit robberies in towns along the river.

WISHES TO BE HUNG.

Patrick Burns who was convicted of murdering Frederick Ostermeyer some months ago and sentenced to be hanged the last of this month but whose sentence was commuted to ten years in the Penitentiary by Governor Brown a day or two ago, was brought before the Criminal Court yesterday and declined to accept the commutation as he preferred to be hanged. It was finally agreed however between the court and prisoner's lawyer that Burns should be allowed a week to think over the matter.

A FRAUD.

A Quincy dispatch says a man representing himself as a catholic priest was arrested here on Saturday charged with obtaining money under false pretences. He claims to be Father Boniface of Baltimore but has several aliases being known as J P. Crowley, Father O'Neil, etc. He has victimized people in St. Louis, Kansas City, St. Joe, Missouri and in this city raising subscriptions ostensibly for church purposes. A certificate of deposit for several hundred dollars from a St. Joe bank was found in his possession.

MUTINY.

Several roustabouts on the steamer Henry Ames mutinied yesterday afternoon, some miles below the city, and were arrested on the arrival of the steamer last evening and placed in custody of the United States Marshal.

LITTLE ROCK.

Serious Affray.

LITTLE ROCK, ARK., July 5.—Quite a serious affray occurred in Independence county on the 4th. Three brothers named Vernon, noted desperadoes at Sulphur Rock, interfered during the celebration and fired into the crowd of about 1,000 persons, seriously injuring a Deputy Sheriff and creating a general consternation. Two of the parties were arrested. All are desperadoes who kept the neighborhood in continued uproar.

LEGAL.

IN THE COURT OF COMMON PLEAS OF ALLEGHENY COUNTY.

William Stevenson and Mary Ann Stevenson, his wife, vs. Maria Eve Hoffman, executrix and devisee of JOHN M. HOFFMAN, deceased, and the German Evangelical St. Paul's Congregation of Allegheny City, Pa. Augustus Hoffman, John M. Hoffman, Maria Eve Schartzman, Lena Fuchs and Maria Hermer, devisees of John M. Hoffman, deceased.

No. 235. June Term, 1871. In Equity.

And now, May 20, 1871, this cause came on to be heard, and it appearing to the Court on the affidavit of Mary Ann Stevenson, that two of the defendants, viz: John M. Hoffman and Lena Fuchs, are not within the jurisdiction of the Court and cannot upon diligent inquiry be found so as to be personally served with a copy of the bill filed in this case, on motion of Duff & Leggat, attorneys for plaintiffs, it is ordered, adjudged and decreed that the said John M. Hoffman and the said Lena Fuchs be required to cause an appearance to be entered for them to the bill of complaint filed in this case on or before the first Monday (4th day) of September, 1871; and it is further ordered that a statement of the substance and object of said bill of complaint, together with a copy of this order, be published in the Pittsburgh Daily GAZETTE.

BY THE COURT.

Substance of the Bill of Complaint filed in the above case:

1. That John M. Hoffman died November 20, 1868, having before his death made his last will and testament, in which defendants are devisees.
2. That Mary Ann Stevenson, on November 25, 1867, purchased from said John M. Hoffman a lot of ground situate on the corner of Grant avenue and Park street, Allegheny City, and received a deed for the same, which does not describe the lot purchased.
3. The object of the bill of complaint is to require defendants to deliver to Mary Ann Stevenson a deed properly describing the lot purchased by her.
